Ref. No. Call: 273053/2026

TO BE PUBLISHED ONLINE

CALL FOR EXPRESSION OF INTEREST
(For submission of proposals for the conclusion of a project lease contract)

The Research Committee (Special Account for Research Funds) of Aristotle University of Thessaloniki (ELKE AUTh), in the framework of the project **"Entrepreneurial Universities driving/fostering CLimate Innovation & Digitalisation"** funded by the Higher Education Institution Initiative launched by the European Institute of Innovation and Technology under the EU Horizon 2021-2027 programme, with Academic Head Prof. Ioannis Rekanos, Professor in the Department of Electrical and Computer Engineering AUTh, invites candidates to submit proposals **for (11) positions** as described below, through the award of a project contract, starting from the signing of the contract until **28/02/2027** and with a total anticipated remuneration **14.400,00€** (VAT and taxes included). Contracts can be extended until the end date of the project 31/08/2028 (in case of extension until its completion) and within the approved limits of its budget and up to the amount of 65.000,00€.

Three (3) persons / PhD Candidates in a field related to Interactive Digital Technologies and/or Artificial Intelligence, with Applications in Learning / up to €3.600,00 (up to €1.200,00 per person) / until 28-02-2027 (extension amount up to €15.000,00 / up to €5.000,00 per person)

1. Project Description (A)

The selected candidates will contribute to:

- Designing digital educational materials and tools to support innovation and acceleration activities.
- Helping to identify needs and develop proposals to improve AUTh's innovation services and tools, drawing on expertise in artificial intelligence and/or digital learning.

The above objective will be implemented in the framework of the Work Packages:

- **WP4** – EUCLID Acceleration Programmes
- **WP6** – New Structures and Institutional Capacity

2. Required Qualifications

- Bachelor's degree from a School of Engineering, a School of Sciences or a School of Informatics.
- PhD candidate in a field related to interactive digital technologies and/or artificial intelligence, with applications in learning.
- One (1) publication in a scientific journal on the design, development or evaluation of digital learning systems and/or applications.
- Twelve (12) months of experience*, through participation in research projects, in designing, developing and/or evaluating digital solutions for education.
- Good knowledge of the English language (B2 level).

3. Additional Qualifications

- Master's degree in a field related to information and communication technologies in education and/or interactive software and hardware technologies.
- Additional knowledge of the English language
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Master's degree	200
2a	English language (Level C2)	70
2b	English language (Level C1)	50
3	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

<u>One (1) person / PhD Candidate in a field related to Intelligent Systems for Data Management and Analysis / up to €1.200,00 / until 28-02-2027 (extension amount up to €5.000,00)</u>

1. Project Description (B)

The selected candidate will contribute to the following activities:

- Collecting, organising, managing and analysing data to monitor project indicators and document project results.
- Supporting the development and implementation of the Data Management Plan.

The above objective will be implemented in the framework of the Work Package:

- **WP1** – Project Management, IVAP, Impact Monitoring and Gender Equality.

2. Required Qualifications

- Bachelor's degree from a School of Engineering, a School of Sciences or a School of Informatics
- PhD candidate in a field related to intelligent systems for data management and analysis
- One (1) publication in a scientific journal on a topic related to information systems and/or data management and analysis
- Twelve (12) months of experience* in a field related to database management, through participation in research projects
- Good knowledge of the English language (B2 level)

3. Additional Qualifications

- Master's degree in a field related to computer science and digital technologies.
- Proven knowledge of statistical data analysis.
  Note: *The knowledge is documented with a relevant certificate or with a relevant bachelor's / master's dissertation / doctoral thesis or with relevant courses of the study cycle (detailed grade and if the correlation does not immediately result from the title of the course, the detailed course score must be accompanied by description of the course in the Study Guide) or with teaching of relevant courses (certificate of institution and / or contract).*
- Additional knowledge of the English language
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Master's degree	200
2a	English language (Level C2)	70
2b	English language (Level C1)	50
3	Proven knowledge of statistical data analysis	50
4	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

<u>One (1) person / Master's Degree in a field related to Interaction Design and/or Accessibility and Inclusion in Digital Application Design / up to €1.200,00 / until 28-02-2027 (extension amount up to €5.000,00)</u>

1. Project Description (C)

The selected candidate will contribute to the following activities:

- Developing and applying practical accessibility and inclusion specifications for the digital tools and materials used in the project's learning, mentoring and entrepreneurial team support activities.
- Designing and improving how the project's digital content and communication materials are presented, with an emphasis on usability, accessibility and user experience.

The above objective will be implemented in the framework of the Work Packages:

- **WP1** – Project Management, IVAP, Impact Monitoring and Gender Equality
- **WP7** – Communication, Dissemination and Stakeholder Engagement

2. Required Qualifications

- Bachelor's degree from a School of Engineering, a School of Sciences or a School of Informatics.
- Master's degree in a field related to interaction design and/or accessibility and inclusion in digital application Design.
- Good knowledge of the English language (B2 level).

3. Additional Qualifications

- Additional knowledge of the English language
- Proven knowledge of techniques for presenting content through digital media.
- Proven knowledge of how to analyse and document user requirements for digital applications.

Note: *The knowledge is documented with a relevant certificate or with a relevant bachelor's / master's dissertation / doctoral thesis or with relevant courses of the study cycle (detailed grade and if the correlation does not immediately result from the title of the course, the detailed course score must be accompanied by description of the course in the Study Guide) or with teaching of relevant courses (certificate of institution and / or contract).*

- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Proven knowledge of techniques for presenting content through digital media	25
2	Proven knowledge of how to analyse and document user requirements for digital applications	25
3a	English language (Level C2)	70
3b	English language (Level C1)	50
4	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

<u>One (1) person / Graduate of a School of Engineering, Sciences or Economics / up to €1.000,00 / until 28-02-2027 (extension amount up to €15.000,00)</u>

1. Project Description (D)

The selected candidate will contribute to the following activities:

- Support the monitoring of project progress.
- Design and implement policies and procedures to ensure diversity, inclusion and gender equality within the project.

The above objective will be implemented in the framework of the Work Package:

- **WP1** – Project Management, IVAP, Impact Monitoring and Gender Equality.

2. Required Qualifications

- Bachelor's degree from a School of Engineering, Sciences or Economics
- Twelve (12) months of experience* in monitoring the progress of funded projects
- Twenty-four (24) months of experience* in the design, implementation and/or evaluation of gender equality activities, through participation in research projects
- Good knowledge of the English language (B2 level)

3. Additional Qualifications

- Master's degree from a School of Engineering, Sciences or Economics
- Experience* through participation in funded projects
- Proven knowledge of project management
  Note: *The knowledge is documented with a relevant certificate or with a relevant bachelor's / master's dissertation / doctoral thesis or with relevant courses of the study cycle (detailed grade and if the correlation does not immediately result from the title of the course, the detailed course score must be accompanied by description of the course in the Study Guide) or with teaching of relevant courses (certificate of institution and / or contract).*
- Computer skills in: a) word processing, b) spreadsheets, and c) internet services
- Additional knowledge of the English language
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Master's degree	200
2	Experience* (per month) - 48 months max *Note: only months beyond the Required Experience are graded*	7 (per month)
3	Proven knowledge of project management	50
4a	English language (Level C2)	70
4b	English language (Level C1)	50
5	Computer skills in: a) word processing, b) spreadsheets, and c) internet services	50
6	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

<u>One (1) person / Graduate of a School of Engineering, Sciences or Economics / up to €1.000,00 / until 28-02-2027 (extension amount up to €5.000,00)</u>

1. Project Description (E)

The selected candidate will contribute to the following activities:

- Support the monitoring of project progress.
- Help track quality indicators to measure the effectiveness and impact of project activities.
- Help disseminate project results to a broad audience, including educators, students, labour market stakeholders and the local community, to foster innovation and maximise the uptake of the results.

The above objective will be implemented in the framework of the Work Packages:

- **WP1** – Project Management, IVAP, Impact Monitoring and Gender Equality
- **WP7** – Communication, Dissemination and Stakeholder Engagement

2. Required Qualifications

- Bachelor's degree from a School of Engineering, Sciences or Economics
- Twenty-four (24) months of experience* in monitoring the progress of funded projects
- Good knowledge of the English language (B2 level)

3. Additional Qualifications

- Additional knowledge of the English language
- Proven knowledge of project management

Note: *The knowledge is documented with a relevant certificate or with a relevant bachelor's / master's dissertation / doctoral thesis or with relevant courses of the study cycle (detailed grade and if the correlation does not immediately result from the title of the course, the detailed course score must be accompanied by description of the course in the Study Guide) or with teaching of relevant courses (certificate of institution and / or contract).*

- Computer skills in: a) word processing, b) spreadsheets, and c) internet services
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Proven knowledge of project management	50
2a	English language (Level C2)	70
2b	English language (Level C1)	50
3	Computer skills in: a) word processing, b) spreadsheets, and c) internet services	50
4	Interview	≤30

All the qualifications listed above are in relevance to the project requirements and objectives.

<u>One (1) person / Graduate of a School of Engineering, Sciences or Economics / up to €1.000,00 / until 28-02-2027 (extension amount up to €5.000,00)</u>

1. Project Description (F)

The selected candidate will contribute to the following activities:

- Support project monitoring, with an emphasis on alignment with timelines, objectives and quality specifications, by collecting and processing information on work progress.
- Match the needs of learners, staff and innovation teams with available KIC tools, services and expertise, and develop proposals for joint activities to be included in the cooperation roadmap.

The above objective will be implemented in the framework of the Work Packages:

- **WP1** – Project Management, IVAP, Impact Monitoring and Gender Equality
- **WP5** –KIC Strategic Integration and Partnerships

2. Required Qualifications

- Bachelor's degree from a School of Engineering, Sciences or Economics
- Twelve (12) months of experience* in monitoring the progress of funded projects
- Six (6) months of experience* in investigating and analysing user needs.
- Good knowledge of the English language (B2 level)

3. Additional Qualifications

- Additional knowledge of the English language
- Master's degree from a School of Engineering, Sciences or Economics.
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Master's degree	200
2a	English language (Level C2)	70
2b	English language (Level C1)	50
3	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

One (1) person / PhD in a Field Related to Management, Communication and/or Economics / up to €1.500,00 / until 28-02-2027 (extension amount up to €5.000,00)

1. Project Description (G)

The selected candidate will contribute to the following activities:

- Support the development and promotion of innovative ventures (startups and spin-offs) through branding, communication and networking strategies involving local and international innovation ecosystems.
- Provide business mentoring and contribute to the design of thematic challenges and educational activities within hackathons and acceleration programmes.
- Increase the visibility and recognition of project activities by developing branding and communication strategies that strengthen entrepreneurship in higher education institutions.

The above objective will be implemented in the framework of the Work Packages:

- **WP4** – EUCLID Acceleration Programmes
- **WP7** – Communication, Dissemination and Stakeholder Engagement

2. Required Qualifications

- Bachelor's degree in a field related to management, communication and/or economics
- PhD in a field related to management, communication and/or economics
- Thirty-six (36) months experience* in a field related to supporting entrepreneurship
- Good knowledge of the English language (B2 level)

3. Additional Qualifications

- Experience* through participation in research projects
- Publications in international peer-reviewed scientific journals on topics related to entrepreneurship, innovation, marketing, communication and/or the green and digital transitions
- Additional knowledge of the English language
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Experience* (per month) - 48 months max *Note: only months beyond the Required Experience are graded*.	7 (per month)
2	Publications in scientific journals (per publication) – 6 max	40 (per publication)
3a	English language (Level C2)	70
3b	English language (Level C1)	50
4	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

One (1) person / Graduate in a field related to Humanities or Social Sciences / up to €2.400,00 / until 28-02-2027 (extension amount up to €5.000,00)

1. Project Description (H)

The selected candidate will contribute to the following activity:

- Design and delivery of training and mentoring sessions for entrepreneurial teams participating in the EUCLID acceleration programme, with an emphasis on developing leadership, conflict management and effective communication skills.

The above objective will be implemented in the framework of the Work Packages:

- **WP4** – EUCLID Acceleration Programmes
- **WP7** – Communication, Dissemination and Stakeholder Engagement

2. Required Qualifications

- Bachelor's degree in a field related to humanities or social sciences
- Proven knowledge of communication, negotiation and facilitating collaboration

Note: *The knowledge is documented with a relevant certificate or with a relevant bachelor's / master's dissertation / doctoral thesis or with relevant courses of the study cycle (detailed grade and if the correlation does not immediately result from the title of the course, the detailed course score must be accompanied by description of the course in the Study Guide) or with teaching of relevant courses (certificate of institution and / or contract).*
- Good knowledge of the English language (B2 level)

3. Additional Qualifications

- Master's degree in a field related to mediation, conflict management and/or communication
- Additional knowledge of the English language
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Master's degree	200
2a	English language (Level C2)	70
2b	English language (Level C1)	50
3	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

<u>One (1) person / Master's Degree in a Field Related to Computer Science / up to €1.500,00 / until 28-02-2027 (extension amount up to €5.00,00)</u>

1. Project Description (I)

The selected candidate will contribute to the following activities:
- Identify and document the training needs of higher education institutions for the EUCLID Innovation Academy and analyse participant feedback to improve training materials and activities.
- Organise, update and present content on the project website to promote activities and disseminate results, and develop proposals to improve website navigation and access to content.

The above objective will be implemented in the framework of the Work Packages:
- **WP2** – EUCLID Innovation Academy
- **WP7** – Communication, Dissemination and Stakeholder Engagement

2. Required Qualifications

- Bachelor's degree from a School of Sciences, Engineering or Informatics
- Master's degree in a field related to computer science
- Six (6) months of experience* in investigating user needs, through participation in funded projects
- Good knowledge of the English language (B2 level)

3. Additional Qualifications

- Proven knowledge of data analysis and visualisation
  Note: *The knowledge is documented with a relevant certificate or with a relevant bachelor's / master's dissertation / doctoral thesis or with relevant courses of the study cycle (detailed grade and if the correlation does not immediately result from the title of the course, the detailed course score must be accompanied by description of the course in the Study Guide) or with teaching of relevant courses (certificate of institution and / or contract).*
- Additional knowledge of the English language
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Proven knowledge of data analysis and visualisation	50
2a	English language (Level C2)	70
2b	English language (Level C1)	50
3	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

---

5. Required Documents:

1. Submission of Proposal - Statement (see appendix)
2. Detailed table data for the proof of experience (see appendix)
3. Detailed Curriculum Vitae
4. Copies of the Degrees
   Special cases:
   a) In cases where the degree grade is a qualification/criterion and is not indicated on the relevant copy of the degree, the transcript of records should be submitted in addition, otherwise the specific qualification requested will not be marked.
   b) Postgraduate and PhD students should submit a recent certificate (within the last three months) from the relevant University Department, showing that they have the relevant status (postgraduate/PhD student) at the time of submission of the proposal,
   c) If the scientific field/specialisation is not evident from the degree:
   - For bachelor's and master's degrees, the transcript of records should be submitted,
   - For PhD candidates, if the scientific field/specialisation is not evident from the subject of the doctoral thesis, as indicated on the registration certificate from University's Department Secretariat, any other certificate documenting the above, signed by the Secretariat or the supervisor or the three-member committee, should be submitted.
   - For PhD holders, if the scientific field/specialisation is not evident from the doctoral degree, the electronic address of the doctoral thesis from the National Archive of Doctoral Dissertations should be included in the Curriculum Vitae. If the doctoral thesis was obtained from foreign institutions, the title and an abstract should be included in the Curriculum Vitae.
5. Copies of certificates and certifications of previous experience, as well as any other document that will certify the information mentioned in the CV and which are related to the Required or Additional qualifications-criteria of this call for expression of interest.
6. In order to prove that the criterion of publications in journals and/or conference announcements has been fulfilled, the candidate should include the required minimum information in the detailed CV, for journals, the title of the journal, the issue, the date of publication, the title of the publication, the authors, and for conferences, the title, the date and venue and a copy of the programme.

*** Proof of Experience:**

Certificate of employment or/and employment contract, detailing the duration and the job duties and responsibilities.

All the above concerning the experience apply if the candidates during their participation held the required basic qualification or the required professional license or other professional license or certificate.

6. Interview
Candidates who meet all the conditions and required qualifications of the call of **Project A, B, C, D, E, F, G, H, I** will be invited for an interview (after written information by e-mail), except for those whose proposals will score at least **30** points (score range) lower than the first ranked proposal. Candidates who do not attend the interview will be rejected. It is not necessary to hold an interview if all the conditions and required qualifications of the call are met by a single proposal.

The topics of the questions and the marking system to be used are shown in the following table:

Nr.	Interview topic	Level of Knowledge Units for Grading	Scoring range
1	Organisational skills	Basic 0-3 Good 4-7 Excellent 8-10	0-10
2	Understanding of position requirements, project objectives and critical success factors	Basic 0-3 Good 4-7 Excellent 8-10	0-10
3	Communication skills	Basic 0-3 Good 4-7 Excellent 8-10	0-10

7. Submission of proposals

Proposals and required documents should be submitted either via e-mail to sstyl@auth.gr or in person or by post to the following address: Secretariat of the Department of Spatial Planning & Development, Headquarters Building (1st floor), Faculty of Engineering AUTh, 54124, Thessaloniki, within hours 10:00 - 12:00, **no later than 30/11/2026 at 12:00.** Proposals will be attributed a reference number from the Secretariat of the Department of the Academic Head of the project.

8. Publication – Information

This Call will be published on the website of ELKE AUTh https://rc.auth.gr/proskliseis-gia-apasholisi-se-erga and on the website of "Diavgeia".

For more information and questions regarding the position, candidates may refer to **2310-991430** For information on the proposal submission process candidates may contact ELKE AUTh at ***00302310-994055, 994052, 994082, 994053.***

9. Evaluation

Submitted proposals will be evaluated by a three-member Evaluation Committee in accordance with the procedure provided for in article 244 of Law 4957/2022 and in article 20 of the Funding and Project Management Guide of ELKE AUTh as applicable.

10. Objection

Candidates are informed of the results through the website of the ELKE AUTH (https://rc.auth.gr/proskliseis-gia-apasholisi-se-erga) in the online posting of this call, as well as through the program Diavgeia. The candidate has the right to submit an objection against the results of this call (Decision of acceptance of results) within an exclusive period of five (5) calendar days from the day following the posting of the decision of acceptance of results on the website of the ELKE AUTH. The objection must be in writing and legally signed, accompanied by a photocopy of the objector's identity card and must be submitted either electronically at prosk@rc.auth.gr, or in person, or by post to the Special Account for Research Funds (ELKE) of the Aristotle University of Thessaloniki (KEDEA Building, 3rd September - University Campus, Thessaloniki, P.O. Box 54636, 1st floor, Office 101). No objections may be raised on the grounds of interview or skill test.

The procedure for objections is defined by article 245 of Law 4957/2022 and article 20A of the Funding and Project Management Guide of the ELKE AUTh as applicable.

If the objection concerns the qualifications of one or more candidates, it is communicated to the latter by e-mail, at the discretion of MODY. Each of them has the right to submit their opinion by electronic or paper submission to the MODY within three (3) calendar days of the notification. All the above shall be forwarded to the Objections Committee. Candidates who will not submit any opinion in accordance with the procedure as described above, may not submit an objection to the new Decision on the acceptance of results of the Research Committee, which will be issued after the approval of the recommendation of the Objections Committee on the acceptance of the objection.

For the effective exercise of the right to submit an objection, candidates have the right to access the data of their individual candidature file and the evaluation-scoring documents, both of themselves and of their other candidates, upon written request within the objection submission deadline and under the conditions of articles 5 of

Law 2690/1999, 42 of Law 4624/2019 and 6 par. 1(f) of the GDPR (EU 2016/679). The application shall be submitted in the same way as the objection.
Taking into account that the data of the candidates' individual files submitted for participation in this Call for Expression of Interest constitute personal data within the meaning of Article 4 of the General Data Protection Regulation 2016/679, the access of the other candidates to these data is possible under the terms of the legislation on personal data and Article 5 of the Code of Administrative Procedure, as well as in accordance with the conditions consistently accepted by the Hellenic Data Protection Authority (decision 28/2018). In any event, by submitting their application, candidates accept that the documents and supporting documents they submit may be issued to their fellow candidates, subject to the above conditions.

Both objections and requests for access to candidate file data must be legally signed, i.e. either with an electronic-digital signature (gov.gr or other legally granted digital signature), or with a handwritten signature. A photocopy of a document with a handwritten signature (scanned pdf file) will be given a same-day incoming file number but will be examined only if the original document will be submitted within five (5) calendar days.

Requests for access to data and objections that do not meet the above requirements will not be examined.

11. Personal data

ELKE AUTh takes all appropriate measures for the protection of personal data during the evaluation process and it is strongly recommended that you read about the data protection policy and your rights on the AUTh website https://www.auth.gr/gdpr.

OTHER CONDITIONS

1. From all the proposals submitted according to the above specifications, the one that best meets the project's requirements will be selected and awarded a work contract on the basis of contractual freedom.
2. Only proposals / objections that will be received by the set date and time will be considered. In the case of postal submission, the deadline is judged on the basis of the date mentioned in the shipping file, provided that it will be received by ELKE AUTh no later than the approval of the results. ELKE AUTh bears no responsibility for the content of the candidacy files that will be sent.
3. Changes to the proposals (replacements, corrections or submission of additional documents) are not allowed after the expiration of the deadline.
4. For the employment of teaching, research and scientific staff, the recognition of academic qualifications awarded by foreign institutions that are not accompanied by DOATAP - Hellenic National Academic Recognition and Information Center (Hellenic NARIC) recognition certificates, is based on the National Registry of Foreign Recognized Higher Education Institutes and the National Registry of Foreign Recognized Academic Title Types, https://www.doatap.gr/anagnorish/mitroa. If the degree is awarded by a foreign institution included in the list of article 307 of Law 4957/2022 (list of foreign institutions with a franchise agreement with private institutions in Greece), the candidate must submit a Certificate of Place of Study from the foreign institution. If the place of study or part of the studies is confirmed as the Greek territory, the degree is not recognised, unless the part of the studies undertaken in the Greek territory is in a public higher education institution. In addition, if the call for applications has a grading/marking scale for the degree, candidates must provide a certificate of the Overall Mark from the foreign institution. The matching of marks is carried out according to the system of matching marks of domestic and foreign qualifications as defined by the decisions of the Plenary Board of the DOATAP (Proceedings 144/7.2.2014 and 145/14.2.2014) https://www.doatap.gr/anagnorish/systima-antistoichias-vathmologisis-imedapon-kai-allodapon-titlon-spoudon/. In case of failure to provide a certificate of the overall final grade, the proposal will not be rejected, but the specific qualification requested will not be marked.
5. For the employment of administrative, technical and other staff, academic qualifications, if they are required or taken into account and have been awarded by foreign institutions, must be accompanied by certificates of recognition of DOATAP-Hellenic National Academic Recognition and Information Center (Hellenic NARIC). In addition, if the call for applications has a grading/marking scale for the degree, a certificate of equivalence issued by the DOATAP is required. If the certificate of equivalence of marks is not provided, and only the certificates of recognition issued by the DOATAP are submitted, the candidate's proposal will not be rejected, but the specific qualification requested will not be marked.
6. It is pointed out that the procedure for submitting proposals for the conclusion of a project lease contract is not competitive, while the selection of a contractor has the character of accepting the proposal and not "recruitment". The evaluation process will be completed by compiling a ranking list and / or a list of excluded, while those selected will be notified individually. In case of a tie, the proposal of the interested person is selected in order a) with the longest experience, b) with the highest bachelor's degree mark, c) with the highest master's degree mark.
7. The proposal that is first in the ranking table and has the highest score in all the scoring criteria will be the one that will be selected. In case of obstruction of the person who submitted it, the next proposal is selected until the ranking order is exhausted.
8. Any submitted proposal that does not meet the criteria of the call of the expression of interest will not be examined any further and will be automatically rejected.
9. Throughout the execution of the project and according to the terms of the contract, following a relevant decision of the Research Committee, the selected person may be replaced by the next candidate in the ranking order, either due to his/her resignation or due to improper execution of the contract, following a written notice of termination of the contract that will be duly served on him/her and after the deadline for compliance set in the same document has expired without effect.
10. The contract may be extended without restriction, following a decision of the competent body of ELKE AUTh and if the required budget of the project allows it, without a new invitation, until the end date of the project (and in case of extension of the project until its new end date).
11. ELKE AUTh does not undertake any commitment to conclude a contract, as it is left to its full discretion to conclude or not contracts, as well as their number, excluding any claim of the interested parties.
12. The project assignment will take place in accordance with the provisions of the Program Implementation Guide.
13. The knowledge of foreign languages is certified in accordance with the provisions of the Presidential Decree 85/2022 "Determining the qualifications for appointment to positions of public sector" (A΄232/17.12.2022), especially according to the articles 10, 14 par. 3 and 15 par. 7.
14. Foreign documents must be accompanied by photocopies of their official translation into the Greek language except for English, French, German, Italian and Spanish language certificates which, if they meet the conditions of the P.D. 85/2022, are accepted without requiring their translation.
15. For candidates, computer skills shall be certified according to the Presidential Decree 85/2022 "Determining the qualifications for appointment to positions of public sector" (A΄232/17.12.2022), especially according to the article 9.
16. It should be noted that the project assignment to candidates employed in the Public Sector, in Public and Private Bodies, etc. is subject to the prohibitions/restrictions imposed by national legislation, the regulatory framework of the project management and the Funding and Management Guide of ELKE AUTh.

Vice-President of the Research Committee of AUTH

Kyriaki Kosmidou
Professor of Banking and Finance
