CALL FOR EXPRESSION OF INTEREST

(For submission of proposals for the conclusion of a project lease contract)

The Research Committee (Special Account for Research Funds) of Aristotle University of Thessaloniki (ELKE AUTH), in the framework of the project "**FAIR data from collection to exploitation**" funded by the European Union under the framework of Horizon 2021-2027 program, with Academic Head Prof. Evdokimos Konstantinidis, Assistant Professor of the Department of Medicine AUTH, invites candidates to submit proposals for four (**4**) **positions** as described below, through the award of a project contract, starting from the signing of the contract until **30/6/2028** and with a total anticipated remuneration **140.000,00 €** (VAT and taxes included). The contracts can be extended until the end date of the project 31/12/2028 (in case of extension until its completion) and within the approved limits of its budget and up to the amount of 15.000,00 €.

One (1) person / Holder of a Master's degree in Engineering or Biomedical Engineering / until 30/6/2028 / up to €25,000.00 (extension amount up to €3,000.00)

1. Project Description (A)

The selected individual will engage in the following tasks under the guidance, supervision, and oversight of the Academic Head and as a member of the project team:

- Development of ma-DMP, the RAISE Suite SDK, and RCH modifications for effective data management from collection to utilization
- Creation of SDK tools for data collection, flow, and (pseudo)anonymization.
- Extension of the EOSC-RAISE RCH for comprehensive management and monitoring of the research data lifecycle through enriched RAI Id PID metadata.
- Design and implementation of project dissemination and communication activities. Organization of events and Open Science Days to inform the public.
- Design and pilot implementation of an Open Science course at partner universities
- Support for linking the project with relevant European Open Science initiatives and infrastructures (EOSC)

The above tasks will be carried out within the framework of the following work packages:

- **WP3:** RAISE Suite Machine Actionable DMP, SDK and Central Hub.
- **WP6:** Dissemination, Exploitation of Results, and Promotion of Open Science

2. Required Qualifications

- Bachelor's degree in Natural Science.
- Master's degree in Science of Engineering or Biomedical Engineering
- Very good knowledge of English (C1)
- Research** experience 18 months of in the design, analysis, and/or management of open data or applications, in the development and/or evaluation of pilot programs, and/or in the publication and dissemination of results.

3. Additional Qualifications

- Research** experience gained through participation in research projects
- Excellent knowledge of English (C2)
- Proven knowledge of Python programming

Note: Knowledge must be documented by a relevant certificate or by a relevant bachelor's/master's/doctoral thesis or dissertation, or by relevant courses in the curriculum (detailed grade and, if the relevance is not immediately apparent from the course title, the detailed grade must be accompanied by the course description in the Course Catalog) or by teaching relevant courses (certificate from the institution and/or contract).

- Publications in international scientific journals on topics related to the development of data analysis, management, and evaluation systems.
- Announcements in international scientific conferences on topics related to the development of data analysis, management, and evaluation systems.
- Conference Organization
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Experience** (per month) - 66 months max <i>Note: only months beyond the Required Experience are graded</i>	7 (per month)
2	Excellent knowledge of English (C2)	70
3	Proven knowledge of Python programming	20
4	Publications in scientific journals (per publication) – 6 max	40 (per publication)
5	Announcements in scientific conferences (per announcement) – 6 max	15 (per announcement)
6	Organization of conferences (per conference) and up to 5 conferences <i>Note: To be certified by a relevant statement from the project coordinator or the conference organizer</i>	≤50 (on a scale of 10)
7	Interview	≤210

All the qualifications listed above are in relevance with the project requirements and objectives.

One (1) person / Master's degree in Computer Science or Biomedical Engineering & Informatics / until 30/6/2028 / up to 40.000,00€ (extension amount up to €4.000,00)

1. Project Description (B)

The selected individual will engage in the following tasks under the guidance, supervision, and oversight of the Academic Head and as a member of the project team:

- Participation in the collection and analysis of the RAISE Suite's functional and technical requirements
- Development of system interoperability mechanisms within a service framework to enable standardized reporting of research experiment data.
- Ensuring compliance with scientific community protocols
- Development of ma-DMP, the RAISE Suite SDK, and RCH modifications for effective data management from collection to utilization.
- Creating SDK tools for data collection, flow, and (pseudo)anonymization.
- Extending the EOSC-RAISE RCH for comprehensive management and monitoring of the research data lifecycle through enriched RAI Id PID metadata.
- Conducting an evaluation and expanding the functionalities of the RAISE suite system regarding usability, user experience, and effectiveness.
- Collect and process qualitative metrics regarding the availability of additional datasets from partners and external researchers.

The above tasks will be carried out within the framework of the following work packages:

- **WP2:** Collaborative Requirements Elicitation, Concepts Definitions and Architecture
- **WP3:** RAISE Suite Machine Actionable DMP, SDK and Central Hub.
- **WP4:** RAISE Streaming Node and Certified Node

2. Required Qualifications

- Bachelor's degree in Natural Science
- Master's degree in Computer Science or Biomedical Engineering & Informatics

- Very good knowledge of English (C1)
- Research** experience 12 months in data processing and standardization and/or in the analysis of interoperability requirements and networking and/or in the usability evaluation of the RAISE system.

3. Additional Qualifications

- Research** Experience from participation in research projects.
- Excellent Knowledge of English language (C2).
- Publications in international scientific journals on topics related to the development of data analysis, management, and evaluation systems.
- Announcements in international scientific conferences on topics related to the development of data analysis, management, and evaluation systems.
- Interview.

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Experience** (per month) - 72 months max <i>Note: only months beyond the Required Experience are graded</i>	7 (per month)
2	Excellent Knowledge of English language (C2 level)	70
3	Publications in scientific journals (per publication) – 6 max	40 (per publication)
4	Announcements in scientific conferences (per announcement) – 6 max	15 (per announcement)
5	Interview	≤210

All the qualifications listed above are in relevance with the project requirements and objectives.

One (1) person / Bachelor's degree in the Natural Sciences / until 30/6/ 2028 / up to €25,000.00 (extension amount up to €3,000.00)

1. Project Description (C)

The selected individuals will engage in the following tasks under the guidance, supervision, and oversight of the Academic Head and as members of the project team:

- Development of ma-DMP, the RAISE Suite SDK, and RCH modifications for effective data management from collection to utilization
- Creation of SDK tools for data collection, flow, and (pseudo)anonymization.
- Extension of the EOSC-RAISE RCH for comprehensive management and monitoring of the research data lifecycle through enriched RAI Id PID metadata.
- Design and implementation of project dissemination and communication activities. Organization of events and Open Science Days to inform the public.
- Assistance in developing collaborations with stakeholders.
- Coordinating actions to ensure the utilization and sustainability of the project's results.
- Supporting the project's integration with relevant European initiatives and Open Science infrastructures (EOSC).

The above tasks will be carried out within the framework of the following work packages:

- **WP3:** RAISE Suite Machine Actionable DMP, SDK and Central Hub
- **WP6:** Dissemination, Exploitation of Results, and Promotion of Open Science

2. Required Qualifications

- Bachelor's degree in Natural Sciences
- good knowledge of English language (B2)
- Research** Experience of 12 months in design- collection- analysis of data, and/or in application debugging and initiatives to strengthen partnerships

3. Additional Qualifications

- Research** Experience from participation in research projects.
- Additional knowledge of English language.
- Knowledge of second foreign language (French, German, Spanish, or Italian).

Note: If the candidate is well-known in two or more foreign languages, the highest level of proficiency among them will be considered for scoring.

- Interview.

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Experience** (per month) - 72 months max <i>Note: only months beyond the Required Experience are graded</i>	7 (per month)
2a	Knowledge of English language (C2 level)	70
2b	Knowledge of English language (C1 level)	50
3a	Knowledge of French, German, Spanish, or Italian (C2 level)	70
3b	Knowledge of French, German, Spanish, or Italian (C1 level)	50
3c	Knowledge of French, German, Spanish, or Italian (B2 level)	30
5	Interview	≤210

All the qualifications listed above are in relevance with the project requirements and objectives.

One (1) person / Bachelor's degree in Computer Science, Software Engineering, or Automation Engineering/ until 30/6/ 2028 / up to €50,000.00 (extension amount up to €5,000.00)

1. Project Description (D)

The selected individuals will engage in the following tasks under the guidance, supervision, and oversight of the Academic Head and as members of the project team:

- Development of systems for identifying and resolving research data, including source data, algorithms, and generated results.
- Development of system interoperability mechanisms within a service framework to enable standardized reporting of research experiment data.
- Development and operation of the core infrastructure and services of the RAISE Suite.
- Development of ma-DMP, the RAISE Suite SDK, and RCH modifications for effective data management from collection to utilization.
- Creation of SDK tools for data collection, flow, and (pseudo)anonymization.
- Extension of the EOSC-RAISE RCH for comprehensive management and monitoring of the research data lifecycle through enriched RAI Id PID metadata.
- Implementation of best practices in infrastructure and resource provisioning, balancing existing EOSC cloud computing capabilities with European data and computing resource management capabilities.

The above tasks will be carried out within the framework of the following work packages:

- **WP2:** Collaborative Requirements Elicitation, Concepts Definitions and Architecture
- **WP3:** RAISE Suite Machine Actionable DMP, SDK and Central Hub

2. Required Qualifications

- Bachelor's degree in Computer Science, Software Engineering, or Automation Engineering
- Good command of English (B2)
- Professional* and/or research** experience 24 months in design, tool development, and application - system development

3. Additional Qualifications

- Research Experience* from participation in research projects.
- Additional knowledge of English language.
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Experience** (per month) - 60 months max <i>Note: only months beyond the Required Experience are graded</i>	7 (per month)

2a	Excellent Knowledge of English language (C2)	70
2b	Very good Knowledge of English language (C1)	50
3	Interview	≤210

All the qualifications listed above are in relevance with the project requirements and objectives.

5. Required Documents:

1. Submission of Proposal - Statement (see appendix)
2. Detailed table data for the proof of experience, if needed (see appendix)
3. Detailed Curriculum Vitae
4. Copies of the Degrees
Special cases:
 - a) In cases where the degree grade is a qualification/criterion and is not indicated on the relevant copy of the degree, the transcript of records should be submitted in addition, otherwise the specific qualification requested will not be marked.
 - b) Postgraduate and PhD students should submit a recent certificate (within the last three months) from the relevant University Department, showing that they have the relevant status (postgraduate/PhD student) at the time of submission of the proposal,
 - c) If the scientific field/specialisation is not evident from the degree:
 - For bachelor's and master's degrees, the transcript of records should be submitted,
 - For PhD candidates, if the scientific field/specialisation is not evident from the subject of the doctoral thesis, as indicated on the registration certificate from University's Department Secretariat, any other certificate documenting the above, signed by the Secretariat or the supervisor or the three-member committee, should be submitted.
 - For PhD holders, if the scientific field/specialisation is not evident from the doctoral degree, the electronic address of the doctoral thesis from the National Archive of Doctoral Dissertations should be included in the Curriculum Vitae. If the doctoral thesis was obtained from foreign institutions, the title and an abstract should be included in the Curriculum Vitae.
5. Copies of certificates and certifications of previous experience, as well as any other document that will certify the information mentioned in the CV and which are related to the Required or Additional qualifications-criteria of this call for expression of interest.
6. In order to prove that the criterion of publications in journals and/or conference announcements has been fulfilled, the candidate should include the required minimum information in the detailed CV, for journals, the title of the journal, the issue, the date of publication, the title of the publication, the authors, and for conferences, the title, the date and venue and a copy of the programme.

*** Proof of Experience:**

Certificate of employment or/and employment contract, detailing the duration and the job duties and responsibilities.

All the above concerning the experience apply if the candidates during their participation held the required basic qualification or the required professional license or other professional license or certificate.

6. Interview

Candidates who meet all the conditions and required qualifications of the call will be invited for an interview (after written information by e-mail). Candidates who do not attend the interview will be rejected. It is not necessary to hold an interview if all the conditions and required qualifications of the call are met by a single proposal.

The topics of the questions and the marking system to be used are shown in the following table:

Nr.	Interview topic	Level of Knowledge Units for Grading	Scoring range
1	Understanding of position requirements, project objectives, and critical success factors.	Basic 01-20 Good 21-50 Excellent 51-70	01-70

2	Code management and data analysis – methodology for the development and operation of information systems	Basic 01-20 Good 21-50 Excellent 51-70	01-70
3	Ability to coordinate and collaborate with diverse teams.	Basic 01-20 Good 21-50 Excellent 51-70	01-70

7. Submission of proposals

Proposals and required documents should be submitted either via e-mail to trontsiu@auth.gr or in person or by post to the following address Secretariat of the Department of Medicine, AUTH Campus, 54124, Thessaloniki, within hours 10.00-14.00, **no later than 20/04/2026 at 14.00**. Proposals will be attributed as a reference number from the Secretariat of the Department of the Academic Head of the project.

8. Publication – Information

This Call will be published on the website of ELKE AUTH <https://rc.auth.gr/proskliseis-gia-apasholisi-se-erga> and on the website of "Diavgeia".

For more information and questions regarding the position, candidates may refer to **00302310 -999237 (Evdokimos Konstantinidis)**. For information on the proposal submission process candidates may contact ELKE AUTH at **00302310-994055,4082,4053, 4052**.

9. Evaluation

Submitted proposals will be evaluated by a three-member Evaluation Committee in accordance with the procedure provided for in article 244 of Law 4957/2022 and in article 20 of the Funding and Project Management Guide of ELKE AUTH as applicable.

10. Objection

Candidates are informed of the results through the website of the ELKE AUTH (<https://rc.auth.gr/proskliseis-gia-apasholisi-se-erga>) in the online posting of this call, as well as through the program Diavgeia. The candidate has the right to submit an objection against the results of this call (Decision of acceptance of results) within an exclusive period of five (5) calendar days from the day following the posting of the decision of acceptance of results on the website of the ELKE AUTH. The objection must be in writing and legally signed, accompanied by a photocopy of the objector's identity card and must be submitted either electronically at prosk@rc.auth.gr, or in person, or by post to the Special Account for Research Funds (ELKE) of the Aristotle University of Thessaloniki (KEDEA Building, 3rd September - University Campus, Thessaloniki, P.O. Box 54636, 1st floor, Office 101). No objections may be raised on the grounds of interview or skill test.

The procedure for objections is defined by article 245 of Law 4957/2022 and article 20A of the Funding and Project Management Guide of the ELKE AUTH as applicable.

If the objection concerns the qualifications of one or more candidates, it is communicated to the latter by e-mail, at the discretion of MODY. Each of them has the right to submit their opinion by electronic or paper submission to the MODY within three (3) calendar days of the notification. All the above shall be forwarded to the Objections Committee. Candidates who will not submit any opinion in accordance with the procedure as described above, may not submit an objection to the new Decision on the acceptance of results of the Research Committee, which will be issued after the approval of the recommendation of the Objections Committee on the acceptance of the objection.

For the effective exercise of the right to submit an objection, candidates have the right to access the data of their individual candidature file and the evaluation-scoring documents, both of themselves and of their other candidates, upon written request within the objection submission deadline and under the conditions of articles 5 of Law 2690/1999, 42 of Law 4624/2019 and 6 par. 1(f) of the GDPR (EU 2016/679). The application shall be submitted in the same way as the objection.

Taking into account that the data of the candidates' individual files submitted for participation in this Call for Expression of Interest constitute personal data within the meaning of Article 4 of the General Data Protection Regulation 2016/679, the access of the other candidates to these data is possible under the terms of the legislation on personal data and Article 5 of the Code of Administrative Procedure, as well as in accordance with the conditions consistently accepted by the Hellenic Data Protection Authority (decision 28/2018). In any event, by submitting their application, candidates accept that the documents and supporting documents they submit may be issued to their fellow candidates, subject to the above conditions.

Both objections and requests for access to candidate file data must be legally signed, i.e. either with an electronic-digital signature (gov.gr or other legally granted digital signature), or with a handwritten signature. A photocopy of a document with a handwritten signature (scanned pdf file) will be given a same-day incoming file number but will be examined only if the original document will be submitted within five (5) calendar days.

Requests for access to data and objections that do not meet the above requirements will not be examined.

11. Personal data

ELKE AUTH takes all appropriate measures for the protection of personal data during the evaluation process and it is strongly recommended that you read about the data protection policy and your rights on the AUTH website <https://www.auth.gr/gdpr>.

OTHER CONDITIONS

1. From all the proposals submitted according to the above specifications, the one that best meets the project's requirements will be selected and awarded a work contract on the basis of contractual freedom.
2. Only proposals / objections that will be received by the set date and time will be considered. In the case of postal submission, the deadline is judged on the basis of the date mentioned in the shipping file, provided that it will be received by ELKE AUTH no later than the approval of the results. ELKE AUTH bears no responsibility for the content of the candidacy files that will be sent.
3. Changes to the proposals (replacements, corrections or submission of additional documents) are not allowed after the expiration of the deadline.
4. For the employment of teaching, research and scientific staff, the recognition of academic qualifications awarded by foreign institutions that are not accompanied by DOATAP - Hellenic National Academic Recognition and Information Center (Hellenic NARIC) recognition certificates, is based on the National Registry of Foreign Recognized Higher Education Institutes and the National Registry of Foreign Recognized Academic Title Types, <https://www.doatap.gr/anagnorish/mitroa>. If the degree is awarded by a foreign institution included in the list of article 307 of Law 4957/2022 (list of foreign institutions with a franchise agreement with private institutions in Greece), the candidate must submit a Certificate of Place of Study from the foreign institution. If the place of study or part of the studies is confirmed as the Greek territory, the degree is not recognised, unless the part of the studies undertaken in the Greek territory is in a public higher education institution. In addition, if the call for applications has a grading/marketing scale for the degree, candidates must provide a certificate of the Overall Mark from the foreign institution. The matching of marks is carried out according to the system of matching marks of domestic and foreign qualifications as defined by the decisions of the Plenary Board of the DOATAP (Proceedings 144/7.2.2014 and 145/14.2.2014) <https://www.doatap.gr/anagnorish/systima-antistoichias-vathmologisis-imedapon-kai-allodapon-titlon-spoudon/>. In case of failure to provide a certificate of the overall final grade, the proposal will not be rejected, but the specific qualification requested will not be marked.
5. For the employment of administrative, technical and other staff, academic qualifications, if they are required or taken into account and have been awarded by foreign institutions, must be accompanied by certificates of recognition of DOATAP-Hellenic National Academic Recognition and Information Center (Hellenic NARIC). In addition, if the call for applications has a grading/marketing scale for the degree, a certificate of equivalence issued by the DOATAP is required. If the certificate of equivalence of marks is not provided, and only the certificates of recognition issued by the DOATAP are submitted, the candidate's proposal will not be rejected, but the specific qualification requested will not be marked.
6. It is pointed out that the procedure for submitting proposals for the conclusion of a project lease contract is not competitive, while the selection of a contractor has the character of accepting the proposal and not "recruitment". The evaluation process will be completed by compiling a ranking list and / or a list of excluded, while those selected will be notified individually. In case of a tie, the proposal of the interested person is selected in order a) with the longest experience, b) with the highest bachelor's degree mark, c) with the highest master's degree mark.
7. The proposal that is first in the ranking table and has the highest score in all the scoring criteria will be the one that will be selected. In case of obstruction of the person who submitted it, the next proposal is selected until the ranking order is exhausted.
8. Any submitted proposal that does not meet the criteria of the call of the expression of interest will not be examined any further and will be automatically rejected.
9. Throughout the execution of the project and according to the terms of the contract, following a relevant decision of the Research Committee, the selected person may be replaced by the next candidate in the ranking order, either due to his/her resignation or due to improper execution of the contract, following a written notice of termination of the contract that will be duly served on him/her and after the deadline for compliance set in the same document has expired without effect.
10. The contract may be extended without restriction, following a decision of the competent body of ELKE AUTH and if the required budget of the project allows it, without a new invitation, until the end date of the project (and in case of extension of the project until its new end date).
11. ELKE AUTH does not undertake any commitment to conclude a contract, as it is left to its full discretion to conclude or not contracts, as well as their number, excluding any claim of the interested parties.
12. The project assignment will take place in accordance with the provisions of the Program Implementation Guide.
13. The knowledge of foreign languages is certified in accordance with the provisions of the Presidential Decree 85/2022 "Determining the qualifications for appointment to positions of public sector" (A' 232/17.12.2022), especially according to the articles 10, 14 par. 3 and 15 par. 7.
14. Foreign documents must be accompanied by photocopies of their official translation into the Greek language except for English, French, German, Italian and Spanish language certificates which, if they meet the conditions of the P.D. 85/2022, are accepted without requiring their translation.
15. For candidates, computer skills shall be certified according to the Presidential Decree 85/2022 "Determining the qualifications for appointment to positions of public sector" (A' 232/17.12.2022), especially according to the article 9.
16. It should be noted that the project assignment to candidates employed in the Public Sector, in Public and Private Bodies, etc. is subject to the prohibitions/restrictions imposed by national legislation, the regulatory framework of the project management and the Funding and Management Guide of ELKE AUTH.

The Legal Representative

Ioannis T. Rekanos
Vice – Rector for Research & Innovation AUTH
Professor, School of Electrical and Computer Engineering

SUBMISSION OF PROPOSAL - STATEMENT*
(with consequences of law on false/inaccurate statement)

Name: Surname:

Mobile phone: E-mail: VAT or password number:

Please note in this proposal - statement and outside of the postal file the following

(To be completed by the candidate):

1. The reference number of this call

2. The code of project object you would like to participate (A, B or C)

I affirm that:

- a. I have read and understood all the terms of this Call, which I accept unconditionally,
- b. the information given in all the forms in this proposal is accurate and true,
- c. I give my explicit and unconditional consent to the collection and processing of my personal data, as indicated in this proposal and in the documents submitted with it, exclusively for the purposes of implementing this Call for expressions of interest, including the posting of the results thereof on DIAVGEIA, in accordance with the provisions of the General Data Protection Regulation (GDPR) and Law 4624/2019.

****Incomplete filling of the proposal – statement constitutes a criterion for exclusion***

DETAILED TABLE DATA FOR PROOF OF EXPERIENCE

(The person concerned records all relevant experience to the subject of the call **if required**)

a/a	From	To	(a)	(b)	Institution of Employment - Employer	Employer Category ⁽¹⁾	Task of Employment
			Months of Employment	Days of Employment			

TOTAL **GENERAL TOTAL MONTHS OF EXPERIENCE** ⁽²⁾

(1) Complete as appropriate with 'PR' or 'PU' depending on the category of the Employment Office, where PR: Private sector, individuals or private legal entities (corporations, etc.) • PU: Public sector, government agencies or public entities or local authorities of first and second degree or private entities in the public sector of par. 1 of Art. 14 of Law. 2190/1994 as in force or bodies of par. 3 of Art. 1 of Law. 2527/1997. In the case of self-employed, complete with the indication "SE".

(2) Complete the GENERAL TOTAL MONTHS OF EXPERIENCE. When, in Column (b) shows experience, the total days of employment divided by 25 (if the experience has been calculated as the number of wages) or by 30 (if the experience has been calculated as the period from the start day until the expiration date of employment) and the resulting integer is added to the total months of employment of the column (a).
