Project Code: 12676

Thessaloniki, 08-07-2026
Ref. No. Call: 171906/2026

TO BE PUBLISHED ONLINE**CALL FOR EXPRESSION OF INTEREST**

(For submission of proposals for the conclusion of a project lease contract)

The Research Committee (Special Account for Research Funds) of Aristotle University of Thessaloniki (ELKE AUTH), in the framework of the project **"Elevating Green and Digital Innovation in Higher Education Institutes"** funded by the Higher Education Institution Initiative launched by the European Institute of Innovation and Technology under the EU Horizon 2021-2027 program, with Academic Head Prof. Efstratios Stylianidis, invites candidates to submit proposals **for (6) positions** as described below, through the award of a project contract, starting from the signing of the contract until **31/12/2026** and with a total anticipated remuneration **17.800,00€** (VAT and taxes included). Contracts can be extended until the end date of the project 30/04/2027 (in case of extension until its completion) and within the approved limits of its budget and up to the amount of 60.000,00€.

One (1) person / Graduate of Humanities Studies / up to €7.000,00 / until 31/12/2026 (extension amount up to €10.000,00)

1. Project Description (A)

The candidate will be involved in:

- The design, implementation, and evaluation of training sessions and mentoring programs for academic and administrative staff, with the aim of strengthening their skills in green and digital entrepreneurship, placing particular emphasis on creating an inclusive and supportive environment for women entrepreneurs, as well as organising training activities on gender equality in Higher Education Institutions.
- The implementation and monitoring of a comprehensive action plan for diversity, inclusion, and gender equality across all project activities, the setting of measurable objectives, and the systematic monitoring of progress towards achieving equality and equal access to opportunities for all members involved.
- The collection, documentation, and dissemination of good practices and lessons learned related to gender equality, inclusion, and the participation of diverse groups in the project's activities.
- Participation in the design, implementation, and support of innovation activities, such as hackathons, bootcamps, and accelerator programs, enhancing the participation and networking of diverse groups and ensuring that the activities and environment of the innovation ecosystem are accessible and inclusive for everyone, regardless of gender.

The above objective will be implemented within the framework of the following Work Packages:

- **WP2:** Capacity building and training
- **WP3:** Knowledge exchange
- **WP4:** Innovation ecosystem development
- **WP5:** Communication, dissemination, and impact

2. Required Qualifications

- Bachelor's degree from Faculties of Humanities Studies
- Experience* of twenty-four (24) months in gender equality and gender issues through participation in research projects
- Experience* of twelve (12) months in public awareness and public engagement in research and innovation activities through participation in research projects
- Good knowledge of the English language, level B2

3. Additional Qualifications

- Additional experience* in gender equality and gender issues through participation in research projects
- Master's degree from Faculties of Humanities Studies
- Computer skills in: a) word processing, b) spreadsheets, and c) internet services
- Additional knowledge of the English language
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Experience* (per month) - 48 months max <i>Note: only the months beyond the Required Experience are graded</i>	7 (per month)
2	Master's degree	200
3	Computer skills in: a) word processing, b) spreadsheets, and c) internet services	50
4a	English knowledge (Level C2)	70
4b	knowledge (Level C1)	50
5	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

One (1) person / Holder of a Master's Degree in a field related to Innovation and/or Entrepreneurship / up to €1.600,00 / until 31/12/2026 (extension amount up to €1.000,00)

1. Project Description (B)

The candidate will be involved in:

- The collection, recording, documentation, and organization of good practices, successful examples, and lessons learned arising from the activities of the project and the collaborating organizations.
- Supporting the organization of hackathons/bootcamps and acceleration programs through targeted promotional campaigns, in order to ensure broad and inclusive participation.
- The development and support of educational activities related to digital marketing, with an emphasis on green entrepreneurship and innovation.

The above objective will be implemented within the framework of the following Work Packages:

- **WP2:** Capacity building and training
- **WP3:** Knowledge exchange
- **WP4:** Innovation ecosystem development
- **WP5:** Communication, dissemination, and impact

2. Required Qualifications

- Bachelor's degree in a field related to Management and/or Economics.
- Master's degree in a field related to Innovation and/or Entrepreneurship.
- Twelve (12) months of experience* in the development of educational or training material related to Marketing, Communication, or Entrepreneurship.
- Proven knowledge in the field of digital marketing.
Note: The knowledge is documented with a relevant certificate or with a relevant bachelor's / master's dissertation / doctoral thesis or with relevant courses of the study cycle (detailed grade and if the correlation does not immediately result from the title of the course, the detailed course score must be accompanied by description of the course in the Study Guide) or with teaching of relevant courses (certificate of institution and / or contract).
- Good knowledge of the English language, level B2.

3. Additional Qualifications

- Proven knowledge in the field of digital marketing data analysis.
Note: The knowledge is documented with a relevant certificate or with a relevant bachelor's / master's dissertation / doctoral thesis or with relevant courses of the study cycle (detailed grade and if the correlation does not immediately result from the title of the course, the detailed course score must be accompanied by

description of the course in the Study Guide) or with teaching of relevant courses (certificate of institution and / or contract).

- Additional knowledge of the English language.
- Interview.

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Proven knowledge in the field of digital marketing data analysis	50
2a	English knowledge (Level C2)	70
2b	English knowledge (Level C1)	50
3	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

One (1) person / Holder of a PhD in a field related to Management, Communication, and/or Marketing / up to €1.600,00 / until 31/12/2026 (extension amount up to €10.000,00)

1. Project Description (C)

The candidate will be involved in:

- The design and implementation of educational programs and training activities for students, researchers, and Higher Education Institution staff, with the aim of developing green and digital entrepreneurship skills.
- Supporting the development and promotion of innovative ventures, such as startups and spin-offs, through branding, communication, and networking strategies with local and international innovation ecosystems.
- Providing entrepreneurial guidance/mentoring and contributing to the design of thematic challenges and educational activities in hackathons, bootcamps, and acceleration programs.
- Promoting the visibility and recognition of the project's activities through the development of identity and communication strategies that strengthen sustainable and resilient entrepreneurship in Higher Education Institutions.

The above objective will be implemented within the framework of the following Work Packages:

- **WP2:** Capacity building and training
- **WP4:** Innovation ecosystem development
- **WP5:** Communication, dissemination, and impact

2. Required Qualifications

- Bachelor's degree in a field related to Management, Communication, and/or Economics.
- PhD in a field related to Management, Communication, and/or Marketing.
- Thirty-six (36) months of experience* in a field related to the promotion of entrepreneurship.
- Good knowledge of the English language, level B2.

3. Additional Qualifications

- Experience* through participation in research projects.
- Proven knowledge in the Financial and Administrative Management of Organizations and Units.
Note: The knowledge is documented with a relevant certificate or with a relevant bachelor's / master's dissertation / doctoral thesis or with relevant courses of the study cycle (detailed grade and if the correlation does not immediately result from the title of the course, the detailed course score must be accompanied by description of the course in the Study Guide) or with teaching of relevant courses (certificate of institution and / or contract).
- Publications in international peer-reviewed scientific journals in fields related to entrepreneurship, innovation, marketing, communication, and/or the green and digital transition.
- Additional knowledge of the English language.
- Interview.

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Experience* (per month) - 48 months max <i>Note: only the months beyond the Required Experience are</i>	7 (per month)

	<i>graded</i>	
2	Proven knowledge in the Financial and Administrative Management of Organizations and Units	50
3	Publications in scientific journals (per publication) – 6 max	40 (per publication)
4a	English knowledge (Level C2)	70
4b	English knowledge (Level C1)	50
5	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

One (1) person / Graduate of Humanities, Social, Political, or Legal Sciences / up to €1.600,00 / until 31/12/2026 (extension amount up to €10.000,00)

1. Project Description (D)

The candidate will be involved in:

- The development and implementation of training and skills-empowerment activities in the fields of communication, negotiation, collaboration, and conflict resolution, within the framework of green and digital entrepreneurship.
- Supporting hackathons, bootcamps, and acceleration programs through facilitation and mediation methods, with the aim of strengthening teamwork, innovative thinking, and effective collaboration among participants.
- Providing mentoring and coaching to young entrepreneurs, students, and researchers, with emphasis on developing leadership, conflict management, and effective communication skills.

The above objective will be implemented within the framework of the following Work Packages:

- **WP2:** Capacity building and training
- **WP4:** Innovation ecosystem development

2. Required Qualifications

- Bachelor's degree in a field related to Legal, Social, Political, or Humanities Sciences.
- Proven knowledge in the field of communication, negotiation, and facilitation of collaboration.
Note: The knowledge is documented with a relevant certificate or with a relevant bachelor's / master's dissertation / doctoral thesis or with relevant courses of the study cycle (detailed grade and if the correlation does not immediately result from the title of the course, the detailed course score must be accompanied by description of the course in the Study Guide) or with teaching of relevant courses (certificate of institution and / or contract).
- Good knowledge of the English language, level B2.

3. Additional Qualifications

- Master's degree in fields related to Mediation, Conflict Management, and/or Communication.
- Additional knowledge of the English language.
- Interview.

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Master's degree	200
2a	English knowledge (Level C2)	70
2b	English knowledge (Level C1)	50
3	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

One (1) person / Holder of a PhD in Environmental Sciences and/or Sustainable Development / up to €3.500,00 / until 31/12/2026 (extension amount up to €10.000,00)

1. Project Description (E)

The candidate will be involved in:

- Evaluating the effectiveness of green and digital solutions developed within the framework of hackathons, bootcamps, and acceleration programs.

- Providing scientific support for training and skills-development activities related to sustainable development, resilience, and green entrepreneurship.
- The collection, scientific evaluation, and documentation of good practices, successful examples, and lessons learned in the fields of sustainable development and green innovation, as well as the preparation of material for knowledge-exchange activities among the project partners, university alliances, and EIT KIC networks.

The above objective will be implemented within the framework of the following Work Packages:

- **WP2:** Capacity building and training
- **WP3:** Knowledge exchange
- **WP4:** Innovation ecosystem development

2. Required Qualifications

- Bachelor's degree in Environmental Science.
- PhD in a field related to environmental sciences and/or sustainable development.
- Twenty-four (24) months of experience* in environmental assessment.
- Six (6) months of experience* in the evaluation of sustainable development or green transition measures.
- Six (6) months of experience* in the application of environmental management tools, such as Life Cycle Assessment and Cost-Benefit Analysis.
- Good knowledge of the English language, level B2.

3. Additional Qualifications

- Experience* through participation in projects related to sustainable development, green transition, or climate resilience.
- Publications in international peer-reviewed scientific journals in fields related to sustainability, green technologies, and/or environmental assessment.
- Additional knowledge of the English language.
- Interview.

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Experience* (per month) - 48 months. <i>ote: only the months beyond the Required Experience are graded</i>	7 (per month)
2	Publications in scientific journals (per publication) - 6 max	40 (per publication)
3a	English knowledge (Level C2)	70
3b	English knowledge (Level C1)	50
4	Interview	≤30

All the qualifications listed above are in relevance to the project requirements and objectives.

One (1) person / PhD Candidate in a field related to the Green Economy / up to €2.500,00 / until 31/12/2026 (extension amount up to €10.000,00)

1. Project Description (F)

The candidate will be involved in:

- The development and adaptation of educational material for students and staff of Higher Education Institutions, with emphasis on the green economy, eco-efficiency, and sustainable development.
- Supporting hackathons and bootcamps by contributing to the design of challenges related to the green transition, the circular economy, and sustainable mobility technologies.

The above objective will be implemented within the framework of the following Work Packages:

- **WP2:** Capacity building and training
- **WP4:** Innovation ecosystem development

2. Required Qualifications

- Bachelor's degree in Economics and/or Political Sciences.
- PhD Candidate in a field related to the Green Economy.
- Proven knowledge in topics related to the analysis of economic data and/or the application of green economic tools.

Note: The knowledge is documented with a relevant certificate or with a relevant bachelor's / master's dissertation / doctoral thesis or with relevant courses of the study cycle (detailed grade and if the correlation does not immediately result from the title of the course, the detailed course score must be accompanied by description of the course in the Study Guide) or with teaching of relevant courses (certificate of institution and / or contract).

- Good knowledge of the English language, level B2.

3. Additional Qualifications

- Master's degree in a field related to Economic and/or Regional Development.
- Additional knowledge of the English language.
- Interview.

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Master's degree	200
2a	English knowledge (Level C2)	70
2b	English knowledge (Level C1)	50
3	Interview	≤30

All the qualifications listed above are in relevance with the project requirements and objectives.

5. Required Documents:

1. Submission of Proposal - Statement (see appendix)
2. Detailed table data for the proof of experience (see appendix)
3. Detailed Curriculum Vitae
4. Copies of the Degrees
Special cases:
 - a) In cases where the degree grade is a qualification/criterion and is not indicated on the relevant copy of the degree, the transcript of records should be submitted in addition, otherwise the specific qualification requested will not be marked.
 - b) Postgraduate and PhD students should submit a recent certificate (within the last three months) from the relevant University Department, showing that they have the relevant status (postgraduate/PhD student) at the time of submission of the proposal,
 - c) If the scientific field/specialisation is not evident from the degree:
 - For bachelor's and master's degrees, the transcript of records should be submitted,
 - For PhD candidates, if the scientific field/specialisation is not evident from the subject of the doctoral thesis, as indicated on the registration certificate from University's Department Secretariat, any other certificate documenting the above, signed by the Secretariat or the supervisor or the three-member committee, should be submitted.
 - For PhD holders, if the scientific field/specialisation is not evident from the doctoral degree, the electronic address of the doctoral thesis from the National Archive of Doctoral Dissertations should be included in the Curriculum Vitae. If the doctoral thesis was obtained from foreign institutions, the title and an abstract should be included in the Curriculum Vitae.
5. Copies of certificates and certifications of previous experience, as well as any other document that will certify the information mentioned in the CV and which are related to the Required or Additional qualifications-criteria of this call for expression of interest.
6. In order to prove that the criterion of publications in journals and/or conference announcements has been fulfilled, the candidate should include the required minimum information in the detailed CV, for journals, the title of the journal, the issue, the date of publication, the title of the publication, the authors, and for conferences, the title, the date and venue and a copy of the programme.

*** Proof of Experience:**

Certificate of employment or/and employment contract, detailing the duration and the job duties and responsibilities.

All the above concerning the experience apply if the candidates during their participation held the required basic qualification or the required professional license or other professional license or certificate.

6. Interview

Candidates who meet all the conditions and required qualifications of the call of **Project A**, will be invited for an interview (after written information by e-mail), except for those whose proposals will score at least **30** points (score range) lower than the first ranked proposal. Candidates who do not attend the interview will be rejected. It is not necessary to hold an interview if all the conditions and required qualifications of the call are met by a single proposal.

The topics of the questions and the marking system to be used are shown in the following table:

Nr.	Interview topic	Level of Knowledge Units for Grading	Scoring range
1	Organisational skills	Basic 0-3 Good 4-7 Excellent 8-10	0-10
2	Understanding of position requirements, project goals and key success factors	Basic 0-3 Good 4-7 Excellent 8-10	0-10
3	Knowledge and experience in developing and implementing gender equality action plans	Basic 0-3 Good 4-7 Excellent 8-10	0-10

Candidates who meet all the conditions and required qualifications of the call of **Project B & C**, will be invited for an interview (after written information by e-mail), except for those whose proposals will score at least **30** points (score range) lower than the first ranked proposal. Candidates who do not attend the interview will be rejected. It is not necessary to hold an interview if all the conditions and required qualifications of the call are met by a single proposal.

The topics of the questions and the marking system to be used are shown in the following table:

Nr.	Interview topic	Level of Knowledge Units for Grading	Scoring range
1	Organisational skills	Basic 0-5 Good 6-10 Excellent 11-15	0-15
2	Understanding of the project objectives and their connection with green entrepreneurship and innovation.	Basic 0-5 Good 6-10 Excellent 11-15	0-15

Candidates who meet all the conditions and required qualifications of the call of **Project D**, will be invited for an interview (after written information by e-mail), except for those whose proposals will score at least **30** points (score range) lower than the first ranked proposal. Candidates who do not attend the interview will be rejected. It is not necessary to hold an interview if all the conditions and required qualifications of the call are met by a single proposal.

The topics of the questions and the marking system to be used are shown in the following table:

Nr.	Interview topic	Level of Knowledge Units for Grading	Scoring range
1	Communication skills	Basic 0-3 Good 4-7 Excellent 8-10	0-10
2	Organisational skills	Basic 0-3 Good 4-7 Excellent 8-10	0-10
3	Strategies for Empowering Collaborative Teams and Resolving Conflicts in Innovation Environments	Basic 0-3 Good 4-7 Excellent 8-10	0-10

Candidates who meet all the conditions and required qualifications of the call of **Project E** will be invited for an interview (after written information by e-mail), except for those whose proposals will score at least **30** points (score range) lower than the first ranked proposal. Candidates who do not attend the interview will be rejected. It

is not necessary to hold an interview if all the conditions and required qualifications of the call are met by a single proposal.

The topics of the questions and the marking system to be used are shown in the following table:

Nr.	Interview topic	Level of Knowledge Units for Grading	Scoring range
1	Organisational skills	Basic 0-5 Good 6-10 Excellent 11-15	0-15
2	Skills in designing educational programs or workshops on sustainable development, resilience, and green entrepreneurship.	Basic 0-5 Good 6-10 Excellent 11-15	0-15

Candidates who meet all the conditions and required qualifications of the call of **Project F** will be invited for an interview (after written information by e-mail), except for those whose proposals will score at least **30** points (score range) lower than the first ranked proposal. Candidates who do not attend the interview will be rejected. It is not necessary to hold an interview if all the conditions and required qualifications of the call are met by a single proposal.

The topics of the questions and the marking system to be used are shown in the following table:

Nr.	Interview topic	Level of Knowledge Units for Grading	Scoring range
1	Communication skills	Basic 0-5 Good 6-10 Excellent 11-15	0-15
2	Organisational skills	Basic 0-5 Good 6-10 Excellent 11-15	0-15

7. Submission of proposals

Proposals and required documents should be submitted either via e-mail to sstyl@auth.gr or in person or by post to the following address: Secretariat of the Department of Spatial Planning & Development, Headquarters Building (1st floor), Faculty of Engineering AUTH, 54124 Thessaloniki within hours 10:00 to 12:00, **no later than 20/07/2026 at 12:00**. Proposals will be attributed a reference number from the Secretariat of the Department of the Academic Head of the project.

8. Publication – Information

This Call will be published on the website of ELKE AUTH <https://rc.auth.gr/proskliseis-gia-apasholisi-se-erga> and on the website of "Diavgeia".

For more information and questions regarding the position, candidates may refer to **2310-991430**. For information on the proposal submission process candidates may contact ELKE AUTH at **00302310-994055, 994052, 994082, 994053**.

9. Evaluation

Submitted proposals will be evaluated by a three-member Evaluation Committee in accordance with the procedure provided for in article 244 of Law 4957/2022 and in article 20 of the Funding and Project Management Guide of ELKE AUTH as applicable.

10. Objection

Candidates are informed of the results through the website of the ELKE AUTH (<https://rc.auth.gr/proskliseis-gia-apasholisi-se-erga>) in the online posting of this call, as well as through the program Diavgeia. The candidate has the right to submit an objection against the results of this call (Decision of acceptance of results) within an exclusive period of five (5) calendar days from the day following the posting of the decision of acceptance of results on the website of the ELKE AUTH. The objection must be in writing and legally signed, accompanied by a photocopy of the objector's identity card and must be submitted either electronically at prosk@rc.auth.gr, or in person, or by post to the Special Account for Research Funds (ELKE) of the Aristotle University of Thessaloniki

(KEDEA Building, 3rd September - University Campus, Thessaloniki, P.O. Box 54636, 1st floor, Office 101). No objections may be raised on the grounds of interview or skill test.

The procedure for objections is defined by article 245 of Law 4957/2022 and article 20A of the Funding and Project Management Guide of the ELKE AUTH as applicable.

If the objection concerns the qualifications of one or more candidates, it is communicated to the latter by e-mail, at the discretion of MODY. Each of them has the right to submit their opinion by electronic or paper submission to the MODY within three (3) calendar days of the notification. All the above shall be forwarded to the Objections Committee. Candidates who will not submit any opinion in accordance with the procedure as described above, may not submit an objection to the new Decision on the acceptance of results of the Research Committee, which will be issued after the approval of the recommendation of the Objections Committee on the acceptance of the objection.

For the effective exercise of the right to submit an objection, candidates have the right to access the data of their individual candidature file and the evaluation-scoring documents, both of themselves and of their other candidates, upon written request within the objection submission deadline and under the conditions of articles 5 of Law 2690/1999, 42 of Law 4624/2019 and 6 par. 1(f) of the GDPR (EU 2016/679). The application shall be submitted in the same way as the objection.

Taking into account that the data of the candidates' individual files submitted for participation in this Call for Expression of Interest constitute personal data within the meaning of Article 4 of the General Data Protection Regulation 2016/679, the access of the other candidates to these data is possible under the terms of the legislation on personal data and Article 5 of the Code of Administrative Procedure, as well as in accordance with the conditions consistently accepted by the Hellenic Data Protection Authority (decision 28/2018). In any event, by submitting their application, candidates accept that the documents and supporting documents they submit may be issued to their fellow candidates, subject to the above conditions.

Both objections and requests for access to candidate file data must be legally signed, i.e. either with an electronic-digital signature (gov.gr or other legally granted digital signature), or with a handwritten signature. A photocopy of a document with a handwritten signature (scanned pdf file) will be given a same-day incoming file number but will be examined only if the original document will be submitted within five (5) calendar days.

Requests for access to data and objections that do not meet the above requirements will not be examined.

11. Personal data

ELKE AUTH takes all appropriate measures for the protection of personal data during the evaluation process and it is strongly recommended that you read about the data protection policy and your rights on the AUTH website <https://www.auth.gr/gdpr>.

OTHER CONDITIONS

1. From all the proposals submitted according to the above specifications, the one that best meets the project's requirements will be selected and awarded a work contract on the basis of contractual freedom.
2. Only proposals / objections that will be received by the set date and time will be considered. In the case of postal submission, the deadline is judged on the basis of the date mentioned in the shipping file, provided that it will be received by ELKE AUTH no later than the approval of the results. ELKE AUTH bears no responsibility for the content of the candidacy files that will be sent.
3. Changes to the proposals (replacements, corrections or submission of additional documents) are not allowed after the expiration of the deadline.
4. For the employment of teaching, research and scientific staff, the recognition of academic qualifications awarded by foreign institutions that are not accompanied by DOATAP - Hellenic National Academic Recognition and Information Center (Hellenic NARIC) recognition certificates, is based on the National Registry of Foreign Recognized Higher Education Institutes and the National Registry of Foreign Recognized Academic Title Types, <https://www.doatap.gr/anagnorish/mitroa>. If the degree is awarded by a foreign institution included in the list of article 307 of Law 4957/2022 (list of foreign institutions with a franchise agreement with private institutions in Greece), the candidate must submit a Certificate of Place of Study from the foreign institution. If the place of study or part of the studies is confirmed as the Greek territory, the degree is not recognised, unless the part of the studies undertaken in the Greek territory is in a public higher education institution. In addition, if the call for applications has a grading/marketing scale for the degree, candidates must provide a certificate of the Overall Mark from the foreign institution. The matching of marks is carried out according to the system of matching marks of domestic and foreign qualifications as defined by the decisions of the Plenary Board of the DOATAP (Proceedings 144/7.2.2014 and 145/14.2.2014) <https://www.doatap.gr/anagnorish/systima-antistoichias-vathmologisis-imedapon-kai-allodapon-titlon-spoudon/>. In case of failure to provide a certificate of the overall final grade, the proposal will not be rejected, but the specific qualification requested will not be marked.
5. For the employment of administrative, technical and other staff, academic qualifications, if they are required or taken into account and have been awarded by foreign institutions, must be accompanied by certificates of recognition of DOATAP-Hellenic National Academic Recognition and Information Center (Hellenic NARIC). In addition, if the call for applications has a grading/marketing scale for the degree, a certificate of equivalence issued by the DOATAP is required. If the certificate of equivalence of marks is not provided, and only the certificates of recognition issued by the DOATAP are submitted, the candidate's proposal will not be rejected, but the specific qualification requested will not be marked.
6. It is pointed out that the procedure for submitting proposals for the conclusion of a project lease contract is not competitive, while the selection of a contractor has the character of accepting the proposal and not "recruitment". The evaluation process will be completed by compiling a ranking list and / or a list of excluded, while those selected will be notified individually. In case of a tie, the proposal of the interested person is selected in order a) with the longest experience, b) with the highest bachelor's degree mark, c) with the highest master's degree mark.
7. The proposal that is first in the ranking table and has the highest score in all the scoring criteria will be the one that will be selected. In case of obstruction of the person who submitted it, the next proposal is selected until the ranking order is exhausted.
8. Any submitted proposal that does not meet the criteria of the call of the expression of interest will not be examined any further and will be automatically rejected.
9. Throughout the execution of the project and according to the terms of the contract, following a relevant decision of the Research Committee, the selected person may be replaced by the next candidate in the ranking order, either due to his/her resignation or due to improper execution of the contract, following a written notice of termination of the contract that will be duly served on him/her and after the deadline for compliance set in the same document has expired without effect.
10. The contract may be extended without restriction, following a decision of the competent body of ELKE AUTH and if the required budget of the project allows it, without a new invitation, until the end date of the project (and in case of extension of the project until its new end date).
11. ELKE AUTH does not undertake any commitment to conclude a contract, as it is left to its full discretion to conclude or not contracts, as well as their number, excluding any claim of the interested parties.
12. The project assignment will take place in accordance with the provisions of the Program Implementation Guide.
13. The knowledge of foreign languages is certified in accordance with the provisions of the Presidential Decree 85/2022 "Determining the qualifications for appointment to positions of public sector" (A' 232/17.12.2022), especially according to the articles 10, 14 par. 3 and 15 par. 7.
14. Foreign documents must be accompanied by photocopies of their official translation into the Greek language except for English, French, German, Italian and Spanish language certificates which, if they meet the conditions of the P.D. 85/2022, are accepted without requiring their translation.
15. For candidates, computer skills shall be certified according to the Presidential Decree 85/2022 "Determining the qualifications for appointment to positions of public sector" (A' 232/17.12.2022), especially according to the article 9.
16. It should be noted that the project assignment to candidates employed in the Public Sector, in Public and Private Bodies, etc. is subject to the prohibitions/restrictions imposed by national legislation, the regulatory framework of the project management and the Funding and Management Guide of ELKE AUTH.

The Legal Representative

Ioannis T. Rekanos

Vice – Rector for Research & Innovation AUTH
Professor, School of Electrical and Computer Engineering
