CALL FOR EXPRESSION OF INTEREST

(For submission of proposals for the conclusion of a project lease contract)

The Research Committee (Special Account for Research Funds) of Aristotle University of Thessaloniki (ELKE AUTh), in the framework of the project **"CO-creating Regenerative and Resilient coastAL futures"** funded by the European Union under the EU Horizon 2021-2027 programme, with Academic Head, Assistant Prof. Margarita Angelidou, invites candidates to submit proposals **for (5) positions** as described below, through the award of a project contract, starting from the signing of the contract until **30/06/2028** and with a total anticipated remuneration **132.200,00€** (VAT and taxes included).
Contracts can be extended until the end date of the project 31/03/2030 (in case of extension until its completion) and within the approved limits of its budget and up to the amount of 205.000,00€.

One (1) person / Graduate of the School of Economic Sciences / up to €36,700.00 / up until 30/06/2028 (extension amount up to €45,000.00)

1. Project Description (A)

The candidate will be responsible for:

- Financial monitoring of the project's progress
- Designing and implementing co-creation activities to develop visions for the regeneration and resilience of coastal areas, as well as conducting visioning workshops
- Supporting the optimization of digital tools and spatial models/data for the project's pilot areas, as well as the collection and analysis of user requirements
- Identifying and engaging stakeholders in the activities of the project's pilot areas
- Developing a comprehensive framework for translating climate risks into financial risks for the pilot areas and analyzing the financing landscape for climate change adaptation
- The dissemination, promotion, and communication of the project's results

The above scope will be implemented within the framework of the following Work Packages:

- **WP1:** MANAGING: Project management
- **WP2:** VISIONING: Co-visioning regenerative and resilient coastal futures
- **WP3:** DEVELOPING: Development and customization of tools and methods
- **WP4:** IMPLEMENTING: LRAs in Action
- **WP5:** MAINSTREAMING: Mainstreaming and upscaling the CORRAL approach
- **WP6:** REACHING OUT: Dissemination, Exploitation, Communication and Sustainability

2. Required Qualifications

- Bachelor's degree from the School of Economic Sciences
- Twelve (12) months of professional* experience in coordinating, managing, and executing funded projects
- Twelve (12) months of professional* experience in supporting the development of digital tools or software
- Six (6) months of professional* experience in the dissemination and promotion of research results
- Good knowledge of English (B2 level)

3. Additional qualifications

- Master's degree from the School of Economic Sciences
- Proven knowledge in the field of financial risk management
  Note: Knowledge must be documented by a relevant certificate, a relevant undergraduate thesis, master's thesis, doctoral dissertation, or relevant courses in the program of study (detailed grade and, if the connection is not immediately apparent from the course title, the detailed grade must be accompanied by the course

description in the Course Catalog) or by teaching relevant courses (certificate from the institution and/or contract).
- Computer skills in the areas of a) word processing, b) spreadsheets, and c) internet services
- Additional knowledge of the English language
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Master's degree requiring at least one year of study	200
2	Proven knowledge in the field of financial risk management	50
3	Computer skills in the following areas: a) word processing, b) spreadsheets, and c) Internet services.	50
4a	Knowledge of English (Excellent C2)	70
4b	Knowledge of English (Very Good C1)	50
5	Interview	≤30

Scoring points are awarded for those qualifications that are listed among the qualifications and criteria to be considered in the call for proposals and are objectively relevant to the project's requirements.

<u>One (1) person / Graduate of the School of Economic Sciences / up to €16,600.00 / up until 30/06/2028 (extension amount up to €45,000.00)</u>

1. Project Description (B)

The candidate will be responsible for:
- Developing a comprehensive framework for converting climate risks into financial risks for the pilot regions and analyzing the financing landscape for climate change adaptation
- The dissemination, promotion, and communication of the project's results

The above scope will be implemented within the framework of the following Work Packages:
- **WP5:** MAINSTREAMING: Mainstreaming and upscaling the CORRAL approach
- **WP6:** REACHING OUT: Dissemination, Exploitation, Communication and Sustainability

2. Required Qualifications
- Bachelor's degree from the School of Economics
- Proven knowledge of financial statement analysis
  Note: Knowledge must be documented by a relevant certificate, a relevant undergraduate thesis, master's thesis, doctoral dissertation, or relevant courses in the degree program (detailed grade and, if the relevance is not immediately apparent from the course title, the detailed grade must be accompanied by the course description in the Course Catalog) or through teaching relevant courses (certificate from the institution and/or contract)
- Good knowledge of the English language (level B2)

3. Additional Qualifications
- Additional knowledge of the English language
- Proven knowledge of research methods and techniques involving quantitative analysis
  Note: Knowledge must be documented by a relevant certificate, a relevant bachelor's, master's, or doctoral thesis, or relevant courses in the program of study (detailed grade and, if the connection is not immediately apparent from the course title, the detailed grade must be accompanied by the course description in the Course Catalog) or through teaching relevant courses (certificate from the institution and/or contract).
- Computer skills in the areas of a) word processing, b) spreadsheets, and c) internet services
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1a	Knowledge of English (Excellent C2)	70
2b	Knowledge of English (Very good C1)	50
3	Proven knowledge of research methods and techniques involving quantitative analysis	50
4	Computer skills in the following areas: a) word processing, b) spreadsheets, and c) Internet services	50

5	Interview	≤30

Scoring points are awarded for those qualifications that are listed among the qualifications and criteria to be considered in the call for proposals and are objectively relevant to the project's requirements.

<u>One (1) person / Graduate of a Polytechnic School / up to €36,700.00 / up until 30/06/2028 (extension amount up to €45,000.00)</u>

1. Project Description (C)

The candidate will be responsible for:

- Monitoring the project's progress
- Participating in the evaluation and analysis of adaptation solutions for coastal areas and creating a catalog of comparative solutions for their resilient development
- Supporting the development of a multi-criteria evaluation framework for coastal climate change adaptation tools
- Designing and implementing a framework for monitoring and evaluating the project's pilot actions, with the aim of measuring impacts and validating performance indicators (KPIs)
- The design and implementation of the capacity-building program, as well as the coordination of a Community of Practice to strengthen coastal resilience and replicate the project's methodology

The above scope will be implemented within the framework of the following Work Packages:

- **WP1:** MANAGING: Project management
- **WP2:** VISIONING: Co-visioning regenerative and resilient coastal futures
- **WP3:** DEVELOPING: Development and customization of tools and methods
- **WP4:** IMPLEMENTING: LRAs in Action
- **WP5:** MAINSTREAMING: Mainstreaming and upscaling the CORRAL approach

2. Required Qualifications

- Bachelor's degree from a polytechnic university
- Twenty-four (24) months of professional* experience in environmental project management
- Twelve (12) months of professional* experience in the coordination, management, and implementation of funded projects
- Good knowledge of English (level B2)

3. Additional Qualifications

- Additional professional* experience in the management of environmental projects
- Proven knowledge of project management software
  Note: Knowledge must be documented by a relevant certificate, a relevant bachelor's, master's, or doctoral thesis, or by relevant courses in the academic program (detailed grade report; if the relevance is not immediately apparent from the course title, the detailed grade must be accompanied by the course description in the Course Catalog) or by teaching relevant courses (certificate from the institution and/or contract).
- Additional knowledge of the English language
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Professional* experience (per month) up to 48 months *Note: Only months exceeding the required experience are counted*	7 (per month)
2	Proven knowledge of project management software (project management)	50
3	Knowledge of English (Excellent C2)	70
4	Knowledge of English (Very Good C1)	50
5	Interview	≤30

Scoring points are awarded for those qualifications that are listed among the qualifications and criteria to be considered in the call for proposals and are objectively relevant to the project's requirements.

<u>One (1) person / Graduate of a Polytechnic School / up to €39,500.00 / up until 30/06/2028 (extension amount up to €45,000.00)</u>

1. Project Description (D)

The candidate will be responsible for:

- Supporting the design of a framework for the resilience and regeneration of coastal areas
- Supporting the optimization of digital tools and spatial models/data for the project's pilot areas, as well as the collection and analysis of user requirements
- Designing adaptation pathways for coastal resilience and formulating the implementation plan for the pilot actions, ensuring the participation of local stakeholders through participatory workshops
- Contributing to the development of a sustainability plan and the utilization of the project's digital tools and results

The above scope will be implemented within the framework of the following Work Packages:

- **WP2:** VISIONING: Co-visioning regenerative and resilient coastal futures
- **WP3:** DEVELOPING: Development and customization of tools and methods
- **WP4:** IMPLEMENTING: LRAs in Action
- **WP6:** REACHING OUT: Dissemination, Exploitation, Communication and Sustainability

2. Required Qualifications

- Bachelor's degree from a polytechnic university
- Twenty-four (24) months of professional* experience in supporting the development of digital tools or software
- Good knowledge of English (B2 level)

3. Additional Qualifications

- Master's degree in Geoinformatics or Geomatics
- Computer skills in the areas of a) word processing, b) spreadsheets, and c) Internet services
- Proven knowledge in the field of urban regeneration, revitalization, and development
  Note: Knowledge must be documented by a relevant certificate, a relevant bachelor's, master's, or doctoral thesis, or by relevant courses in the program of study (detailed grade report; if the relevance is not immediately apparent from the course title, the detailed grade must be accompanied by the course description in the Course Catalog) or by teaching relevant courses (certificate from the institution and/or contract).
- Additional knowledge of the English language
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Master's degree requiring at least one year of study	200
2	Computer skills in the following areas: a) word processing, b) spreadsheets, and c) Internet services	50
3	Proven knowledge in the field of urban regeneration, revitalization, and development	50
4a	Knowledge of English (Excellent C2)	70
4b	Knowledge of English (Very Good C1)	50
5	Interview	≤30

Scoring points are awarded for those qualifications that are listed among the qualifications and criteria to be considered in the call for proposals and are objectively relevant to the project's requirements.

<u>One (1) person / Holder of a PhD from a Polytechnic School / up to €2,700.00 / up until 30/06/2028 (extension amount up to €25,000.00)</u>

1. Project description (E)

The candidate will be responsible for:

- Evaluating and analyzing adaptation solutions for coastal areas and creating a catalog of comparative solutions for their resilient development
- Designing regenerative adaptation pathways for coastal resilience and formulating the implementation plan for the project's pilot actions

The above scope will be carried out within the framework of the following Work Packages:

- **WP2:** VISIONING: Co-visioning regenerative and resilient coastal futures
- **WP4:** IMPLEMENTING: LRAs in Action

2. Required Qualifications

- Bachelor's degree from a polytechnic school
- PhD Diploma of Polytechnic Schools in a field related to spatial planning or sustainability
- Twelve (12) months of professional* experience in managing environmental resilience and climate change adaptation projects
- Good knowledge of English (B2 level)

3. Additional Qualifications

- Master's degree from a Polytechnic school in a field related to urban planning and/or regional planning.
- Publications in scientific journals on topics related to spatial planning and/or environmental governance
- Additional proficiency in English
- Interview

4. Qualifications Assessment

	Qualifications criteria	Credits (Researchers)
1	Master's degree requiring at least one year of study	200
2	Publications in scientific journals (per publication), up to 6 publications	40 (per publication)
3	Knowledge in English (Excellent C2)	70
4a	Knowledge in English (Very Good C1)	50
4b	Interview	≤30

Scoring points are awarded for those qualifications that are listed among the qualifications and criteria to be considered in the call for proposals and are objectively relevant to the project's requirements.

---

5. Required Documents:

1. Submission of Proposal - Statement (see appendix)
2. Detailed table data for the proof of experience, if needed (see appendix)
3. Detailed Curriculum Vitae
4. Copies of the Degrees
   Special cases:
   a) In cases where the degree grade is a qualification/criterion and is not indicated on the relevant copy of the degree, the transcript of records should be submitted in addition, otherwise the specific qualification requested will not be marked.
   b) Postgraduate and PhD students should submit a recent certificate (within the last three months) from the relevant University Department, showing that they have the relevant status (postgraduate/PhD student) at the time of submission of the proposal,
   c) If the scientific field/specialisation is not evident from the degree:
   - For bachelor's and master's degrees, the transcript of records should be submitted,
   - For PhD candidates, if the scientific field/specialisation is not evident from the subject of the doctoral thesis, as indicated on the registration certificate from University's Department Secretariat, any other certificate documenting the above, signed by the Secretariat or the supervisor or the three-member committee, should be submitted.
   - For PhD holders, if the scientific field/specialisation is not evident from the doctoral degree, the electronic address of the doctoral thesis from the National Archive of Doctoral Dissertations should be included in the Curriculum Vitae. If the doctoral thesis was obtained from foreign institutions, the title and an abstract should be included in the Curriculum Vitae.
5. Copies of certificates and certifications of previous experience, as well as any other document that will certify the information mentioned in the CV and which are related to the Required or Additional qualifications-criteria of this call for expression of interest.
6. In order to prove that the criterion of publications in journals and/or conference announcements has been fulfilled, the candidate should include the required minimum information in the detailed CV, for journals, the title of the journal, the issue, the date of publication, the title of the publication, the authors, and for conferences, the title, the date and venue and a copy of the programme.
7. Male candidates must submit a sworn statement (Article 8 of Law 1599/1986) stating that they have fulfilled their military obligations or have been legally exempted from them for the entire duration of the contract to be concluded within the framework of this project.

* Evidence of professional experience:
A. For professional experience in **the private sector**
Certificate from the relevant social security agency. Additionally, if the certificate from the social security agency does not indicate specialized experience, a contract or service agreement must be submitted that covers, as an example, the duration of the specialized experience.
B. For professional experience in the **public sector**
A certificate from the employer and/or a contract with the employer, demonstrating the duration and scope of employment.

It goes without saying that the above regarding experience applies provided that, during their participation, the candidates held the basic degree required by the announcement or the required professional license or other professional license or certificate.

6. Interview:

Candidates who meet all the conditions and required qualifications of the call of Projects A,B,C,D,E will be invited for an interview (after written information by e-mail), except for those whose proposals will score at least **30** points (score range) lower than the first ranked proposal. Candidates who do not attend the interview will be rejected. It is not necessary to hold an interview if all the conditions and required qualifications of the call are met by a single proposal.

The topics of the questions and the marking system to be used are shown in the following table:

Nr.	Interview topic	Level of Knowledge Units for Grading	Scoring range
1	Organizational skills	Sufficient 0-3 Satisfactory 4-7 Excellent 8-10	0-10
2	Understanding of position requirements, project goals and key success factors	Sufficient 0-3 Satisfactory 4-7 Excellent 8-10	0-10

7. Submission of proposals

The submission of proposals and other supporting documents by interested persons will be done either electronically at the address mangel@auth.gr either by physical presence or by post to the address: Secretariat of the Department of Spatial Planning & Development, Headquarters Building (1st floor), Faculty of Engineering AUTh, 54124 Thessaloniki from 10:00 to 12:00, **no later than 19/10/2026 at 12:00**. Proposals will be attributed a reference number from the Secretariat of the Department of the Academic Head of the project.

8. Publication – Information

This Call will be published on the website of ELKE AUTh https://rc.auth.gr/proskliseis-gia-apasholisi-se-erga and on the website of "Diavgeia".

For more information and questions regarding the position, candidates may refer to **2310-991430** For information on the proposal submission process candidates may contact ELKE AUTh at ***00302310-994055, 994052, 994082, 994053.***

9. Evaluation

Submitted proposals will be evaluated by a three-member Evaluation Committee in accordance with the procedure provided for in article 244 of Law 4957/2022 and in article 20 of the Funding and Project Management Guide of ELKE AUTh as applicable.

10. Objection

Candidates are informed of the results through the website of the ELKE AUTH (https://rc.auth.gr/proskliseis-gia-apasholisi-se-erga) in the online posting of this call, as well as through the program Diavgeia. The candidate has the right to submit an objection against the results of this call (Decision of acceptance of results) within an exclusive period of five (5) calendar days from the day following the posting of the decision of acceptance of results on the website of the ELKE AUTH. The objection must be in writing and legally signed, accompanied by a photocopy of the objector's identity card and must be submitted either electronically at prosk@rc.auth.gr, or in person, or by post to the Special Account for Research Funds (ELKE) of the Aristotle University of Thessaloniki (KEDEA Building, 3rd September - University Campus, Thessaloniki, P.O. Box 54636, 1st floor, Office 101). No objections may be raised on the grounds of interview or skill test.

The procedure for objections is defined by article 245 of Law 4957/2022 and article 20A of the Funding and Project Management Guide of the ELKE AUTh as applicable.

If the objection concerns the qualifications of one or more candidates, it is communicated to the latter by e-mail, at the discretion of MODY. Each of them has the right to submit their opinion by electronic or paper submission to the MODY within three (3) calendar days of the notification. All the above shall be forwarded to the Objections Committee. Candidates who will not submit any opinion in accordance with the procedure as described above, may not submit an objection to the new Decision on the acceptance of results of the Research Committee, which will be issued after the approval of the recommendation of the Objections Committee on the acceptance of the objection.

For the effective exercise of the right to submit an objection, candidates have the right to access the data of their individual candidature file and the evaluation-scoring documents, both of themselves and of their other candidates, upon written request within the objection submission deadline and under the conditions of articles 5 of Law 2690/1999, 42 of Law 4624/2019 and 6 par. 1(f) of the GDPR (EU 2016/679). The application shall be submitted in the same way as the objection.
Taking into account that the data of the candidates' individual files submitted for participation in this Call for Expression of Interest constitute personal data within the meaning of Article 4 of the General Data Protection Regulation 2016/679, the access of the other candidates to these data is possible under the terms of the legislation on personal data and Article 5 of the Code of Administrative Procedure, as well as in accordance with the conditions consistently accepted by the Hellenic Data Protection Authority (decision 28/2018). In any event, by submitting their application, candidates accept that the documents and supporting documents they submit may be issued to their fellow candidates, subject to the above conditions.

Both objections and requests for access to candidate file data must be legally signed, i.e. either with an electronic-digital signature (gov.gr or other legally granted digital signature), or with a handwritten signature. A photocopy of a document with a handwritten signature (scanned pdf file) will be given a same-day incoming file number but will be examined only if the original document will be submitted within five (5) calendar days.

Requests for access to data and objections that do not meet the above requirements will not be examined.

11. Personal data

ELKE AUTh takes all appropriate measures for the protection of personal data during the evaluation process and it is strongly recommended that you read about the data protection policy and your rights on the AUTh website https://www.auth.gr/gdpr.

OTHER CONDITIONS

1. From all the proposals submitted according to the above specifications, the one that best meets the project's requirements will be selected and awarded a work contract on the basis of contractual freedom.
2. Only proposals / objections that will be received by the set date and time will be considered. In the case of postal submission, the deadline is judged on the basis of the date mentioned in the shipping file, provided that it will be received by ELKE AUTh no later than the approval of the results. ELKE AUTh bears no responsibility for the content of the candidacy files that will be sent.
3. Changes to the proposals (replacements, corrections or submission of additional documents) are not allowed after the expiration of the deadline.
4. For the employment of teaching, research and scientific staff, the recognition of academic qualifications awarded by foreign institutions that are not accompanied by DOATAP - Hellenic National Academic Recognition and Information Center (Hellenic NARIC) recognition certificates, is based on the National Registry of Foreign Recognized Higher Education Institutes and the National Registry of Foreign Recognized Academic Title Types, https://www.doatap.gr/anagnorish/mitroa. If the degree is awarded by a foreign institution included in the list of article 307 of Law 4957/2022 (list of foreign institutions with a franchise agreement with private institutions in Greece), the candidate must submit a Certificate of Place of Study from the foreign institution. If the place of study or part of the studies is confirmed as the Greek territory, the degree is not recognised, unless the part of the studies undertaken in the Greek territory is in a public higher education institution. In addition, if the call for applications has a grading/marking scale for the degree, candidates must provide a certificate of the Overall Mark from the foreign institution. The matching of marks is carried out according to the system of matching marks of domestic and foreign qualifications as defined by the decisions of the Plenary Board of the DOATAP (Proceedings 144/7.2.2014 and 145/14.2.2014) https://www.doatap.gr/anagnorish/systima-antistoichias-vathmologisis-imedapon-kai-allodapon-titlon-spoudon/. In case of failure to provide a certificate of the overall final grade, the proposal will not be rejected, but the specific qualification requested will not be marked.
5. For the employment of administrative, technical and other staff, academic qualifications, if they are required or taken into account and have been awarded by foreign institutions, must be accompanied by certificates of recognition of DOATAP-Hellenic National Academic Recognition and Information Center (Hellenic NARIC). In addition, if the call for applications has a grading/marking scale for the degree, a certificate of equivalence issued by the DOATAP is required. If the certificate of equivalence of marks is not provided, and only the certificates of recognition issued by the DOATAP are submitted, the candidate's proposal will not be rejected, but the specific qualification requested will not be marked.
6. It is pointed out that the procedure for submitting proposals for the conclusion of a project lease contract is not competitive, while the selection of a contractor has the character of accepting the proposal and not "recruitment". The evaluation process will be completed by compiling a ranking list and / or a list of excluded, while those selected will be notified individually. In case of a tie, the proposal of the interested person is selected in order a) with the longest experience, b) with the highest bachelor's degree mark, c) with the highest master's degree mark.
7. The proposal that is first in the ranking table and has the highest score in all the scoring criteria will be the one that will be selected. In case of obstruction of the person who submitted it, the next proposal is selected until the ranking order is exhausted.
8. Any submitted proposal that does not meet the criteria of the call of the expression of interest will not be examined any further and will be automatically rejected.
9. Throughout the execution of the project and according to the terms of the contract, following a relevant decision of the Research Committee, the selected person may be replaced by the next candidate in the ranking order, either due to his/her resignation or due to improper execution of the contract, following a written notice of termination of the contract that will be duly served on him/her and after the deadline for compliance set in the same document has expired without effect.
10. The contract may be extended without restriction, following a decision of the competent body of ELKE AUTh and if the required budget of the project allows it, without a new invitation, until the end date of the project (and in case of extension of the project until its new end date).
11. ELKE AUTh does not undertake any commitment to conclude a contract, as it is left to its full discretion to conclude or not contracts, as well as their number, excluding any claim of the interested parties.
12. The project assignment will take place in accordance with the provisions of the Program Implementation Guide.
13. The knowledge of foreign languages is certified in accordance with the provisions of the Presidential Decree 85/2022 "Determining the qualifications for appointment to positions of public sector" (A΄232/17.12.2022), especially according to the articles 10, 14 par. 3 and 15 par. 7.
14. Foreign documents must be accompanied by photocopies of their official translation into the Greek language except for English, French, German, Italian and Spanish language certificates which, if they meet the conditions of the P.D. 85/2022, are accepted without requiring their translation.
15. For candidates, computer skills shall be certified according to the Presidential Decree 85/2022 "Determining the qualifications for appointment to positions of public sector" (A΄232/17.12.2022), especially according to the article 9.
16. It should be noted that the project assignment to candidates employed in the Public Sector, in Public and Private Bodies, etc. is subject to the prohibitions/restrictions imposed by national legislation, the regulatory framework of the project management and the Funding and Management Guide of ELKE AUTh.

Vice-President of the Research Committee of AUTH

Kyriaki Kosmidou
Professor of Banking and Finance
School of Economics AUTH

SUBMISSION OF PROPOSAL - STATEMENT*
(with consequences of law on false/inaccurate statement)

Name: …… Surname: ……

Mobile phone: …… E-mail: …… VAT or password number: ……

Please note in this proposal - statement and outside of the postal file the following

(To be completed by the candidate):

1. The reference number of this call

2. The code of project object you would like to participate (A,B,C,D,E)

I affirm that:

a. I have read and understood all the terms of this Call, which I accept unconditionally,
b. the information given in all the forms in this proposal is accurate and true,
c. I give my explicit and unconditional consent to the collection and processing of my personal data, as indicated in this proposal and in the documents submitted with it, exclusively for the purposes of implementing this Call for expressions of interest, including the posting of the results thereof on DIAVGEIA, in accordance with the provisions of the General Data Protection Regulation (GDPR) and Law 4624/2019.
