Euro-MED0200584	10367	MED-GIAHS	Mediterranean GIAHS sites network to promote sustainable agricultural tourism / Δίκτυο μεσογειακών Παγκοσμίως Σημαντικών Συστημάτων Αγροτικής Κληρονομιάς (GIAHS) για την προώθηση του αιεφόρου αγροτουρισμού	1/1/2024	31/3/2026	<p>The overall objective of the project is to create a network of MED-GIAHS sites that have valuable agricultural, landscape, cultural, and natural heritage and resilient ecosystems but, however, face serious threats (climate change, globalisation, low competitiveness, depopulation, loss of biodiversity and ancestral knowledge).</p> <p>Partners will develop and validate a joint strategy based on the transfer of a previous one to promote sustainable agricultural tourism and increase rural communities' resilience and incomes.</p>
Euro-MED0200814	75070	LocAll4Flood	Flash flood risk prevention & resilience in Mediterranean area through an Integrated Multi-stakeholder Governance Model, gathering prevention, adaptation and mitigation solutions / Πρόληψη και αναταξιμότητα έναντι της διακινδύνευσης από αιφνίδιες πλημμύρες στην περιοχή της Μεσογείου, μέσω ενός Ολοκληρωμένου Μοντέλου Πολυσυμμετοχικής Διακυβέρνησης, συλλέγοντας λύσεις πρόληψης, προσαρμογής, και μετριασμού	1/1/2024	30/9/2026	<p>The project aims to promote/contribute to flash flood risk prevention & resilience in small watersheds and non-perennial streams in Mediterranean area, by implementing an integrative approach combining into an Integrated multi-stakeholder governance model - IMGM- i) prevention, ii) climate adaptation, and iii) mitigation actions, and prioritizing Nature-Based Solutions. Particularly, the project will focus on in 4 different topographical areas: Urban, industrial, rural&natural and coastal areas.</p>
Euro-MED0200456	75089	CARBON 4 SOIL	Capturing and Storing Atmospheric CO2 for Improvement of Soil Quality / Δέσμευση και αποθήκευση ατμοσφαιρικού CO2 για την βελτίωση της ποιότητας των εδαφών	1/1/2024	31/3/2026	<p>Project Carbon 4 Soil Quality will generate knowledge and prepare foundations for future testing of SUSTAINABLE MANAGEMENT OF SOIL, called "carbon farming". Carbon farming captures CO2 from the air and stores it into the soil consequently improving soil quality and decreasing CO2.</p> <p>Project will develop strategy and toolbox for carbon farming, ready to be tested in 5-7 different territories. Toolbox will bring direct benefits to agriculture advisors, farmers, cooperatives and also to citizens.</p>
Euro-MED0200836	75129	NUDGES	Novel Support tools to Mediterranean Governments Exploiting Behavioural Incentives / Νέα εργαλεία υποστήριξης Μεσογειακής Διακυβέρνησης με βάση συμπεριφορικά κίνητρα	1/1/2024	31/3/2026	<p>Undertaking a feasibility study - grounded on the results of six experimental pilots, leveraging the territorial diversities and cultural commonalities of Mediterranean countries - for the successful integration of "nudging" strategies into the urban climate change mitigation and adaptation policies of MED local, regional and national public authorities. Creating a new and innovative community of interest and a Transferability Plan paving the way to additional research action in this domain.</p>
