BSB00172	76152	SturNet	Network for the Preservation of Sturgeon and for the Sustainability of the Black Sea Basin Ecosystem / Δίκτυο για τη διατήρηση του οξύρρυγχου και για την αειφορία του οικοσυστήματος της Μαύρης Θάλασσας	30/8/2024	27/2/2027	“SturNet” aims, through primary research, data collection and model development, to pilot and create an innovative digital toolset that will be able to provide interactive information about the sturgeons’ areas and periods of reproduction, both towards environmental, regulative and commercial stakeholders. In this direction, we aim to contribute to the preservation of the sturgeons’ habitats and aquaculture, and subsequently to the wider sustainability of the Black Sea Basin’s ecosystem.
BSB00113	76185	MARMAPS	Open environmental eFolio for joint maritime spatial planning and conservation of the valuable Black Sea Basin marine ecosystems / Ένα ανοιχτό περιβαλλοντικό ηλεκτρονικό χαρτοφυλάκιο για κοινό θαλάσσιο χωροταξικό σχεδιασμό και διατήρηση των πολύτιμων θαλάσσιων οικοσυστημάτων της Λεκάνης της Μαύρης Θάλασσας	20/6/2024	19/12/2025	The project objective is to raise awareness of the target groups on the importance of conserving the valuable Black Sea ecosystems, engage them in creation of Decision Support System (DSS) for maritime spatial planning to foster spatial conservation and restoration measures for marine biodiversity, improve their access to DSS on eFolio, involve them in capacity building to ensure the uptake of conservation prioritisation framework for marine protected areas, and exploit the opportunities for cross-border collaboration.
BSB00559	76219	CARE SEA	Cooperation and Awareness for Pollution-free and Environmentally Sustainable Black Sea / Συνεργασία και ευαισθητοποίηση για την απαλλαγμένη από ρύπανση και περιβαλλοντικά βιώσιμη Μαύρη Θάλασσα	19/7/2024	18/7/2026	The overall objective of the project is enhancing protection and preservation of nature and biodiversity by raising awareness on different types of pollution among communities and providing practical means of action towards a greener and cleaner Black Sea region during a 24-month period. The overall objective is in line with Programme's Priority 2 and relates to Policy's objective 2 by assessing risks and providing management instruments. All activities relate to Specific objective 7.
